(57) **CLAIM**

I claim the ornamental design for the finger guard, as shown and described.

DESCRIPTION

The present design relates to an accessory guard adapted to conform to and fasten to a conventional interior door so as to close the open space between a door and its frame thus preventing access of fingers into said space.

FIG. 1 is a top plan view from above of the finger guard of the present design.

FIG. 2 is a perspective view from above of the finger guard of the present design.

FIG. 3 is a top plan view of the finger guard of the present design shown installed within a door and frame assembly, where the door is closed.

FIG. 4 is a top plan view of the finger guard of the present design shown installed within a door and frame assembly, where the door is semi opened; and,

FIG. 5 is a top plan view of the finger guard of the present design shown installed within a door and frame assembly, where the door is fully open.

The broken lines showing a doorframe, doorstop, hinge and trim are for illustrative purposes only and forms no part of the claimed design.
