(57) **CLAIM**

We claim the ornamental design for a display assembly for ultrasound system, as shown and described.

DESCRIPTION

The present application is related to co-pending and commonly assigned U.S. design patent application Ser. No. 29/203,134, entitled "Ultrasound System," filed Apr. 8, 2004 and to concurrently filed and commonly assigned U.S. design patent application Ser. No. 29/217,296, entitled "Mobile Support Structure for Diagnostic Equipment," the disclosures of which are incorporated herein by reference. FIG. 1 is an isometric view of our new design shown in open position;

FIG. 2 is a rear elevation view thereof;

FIG. 3 is a rear view shown in closed position; and

FIG. 4 is a right elevation view shown in open position; and, FIG. 5 is an isometric view of one embodiment showing the display front and ultrasound body disposed in an open position, wherein the keyboard, buttons, knobs, and other inputs of the ultrasound body are shown for environmental purposes only and form no part of the claimed design of this embodiment.

The portions of the article in broken lines are shown for illustrative purposes only and form no part of the claimed design. The portions of the article not visible in the views above form no part of the claimed design of the illustrated embodiments.
