DESCRIPTION

See application file for complete search history.

The sole FIGURE is a front elevational view of a crown-shaped panel for a bottle carrier.

(56) **References Cited**

The boundary of the claimed design is defined by the lines composed of alternating dots and dashes. The dot-dash lines define a boundary such that the claimed design extends to the boundary but does not include the boundary.

U.S. PATENT DOCUMENTS

The broken lines in the figure are for illustrative purposes only and form no part of the claimed design.
