CLAIM

The ornamental design for an overcap with trigger actuator for aerosol cans, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view of an overcap with trigger actuator for aerosol cans according to the present invention; FIG. 2 is a first side elevational view thereof; FIG. 3 is a second side elevational view thereof; FIG. 4 is a third side elevational view thereof; FIG. 5 is a fourth side elevational view thereof; FIG. 6 is a plan view thereof; and, FIG. 7 is an isometric view illustrating in phantom an aerosol can in which the overcap with trigger actuator may be disposed. Structures shown in phantom form no part of the claimed design.
