(57) **CLAIM**

We claim the ornamental design for an air conditioner, as shown and described.

**DESCRIPTION**

FIG. 1 is a top, front, and left side perspective view of an air conditioner showing our new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a right side elevational view thereof;

FIG. 5 is a left side elevational view thereof;

FIG. 6 is a top plan view thereof;

FIG. 7 is a bottom plan view thereof; and,

FIG. 8 is a top, front, and left side perspective view of the air conditioner of FIG. 1 shown with a front cover slid downwardly from a closed position as shown in FIG. 1 to an opened position, exposing outlets.

The air conditioner can be made of metal, transparent material, and /or synthetic resin. The air conditioner has a front cover having curved upper and lower ends, a generally rectangular shape, inlets on the top, outlets at the bottom and behind front cover in the closed position, and a rounded display near the center of the front cover. The rounded display may be transparent.
