(57) **CLAIM**

The ornamental design for a neck therapy device, as shown and described.

DESCRIPTION

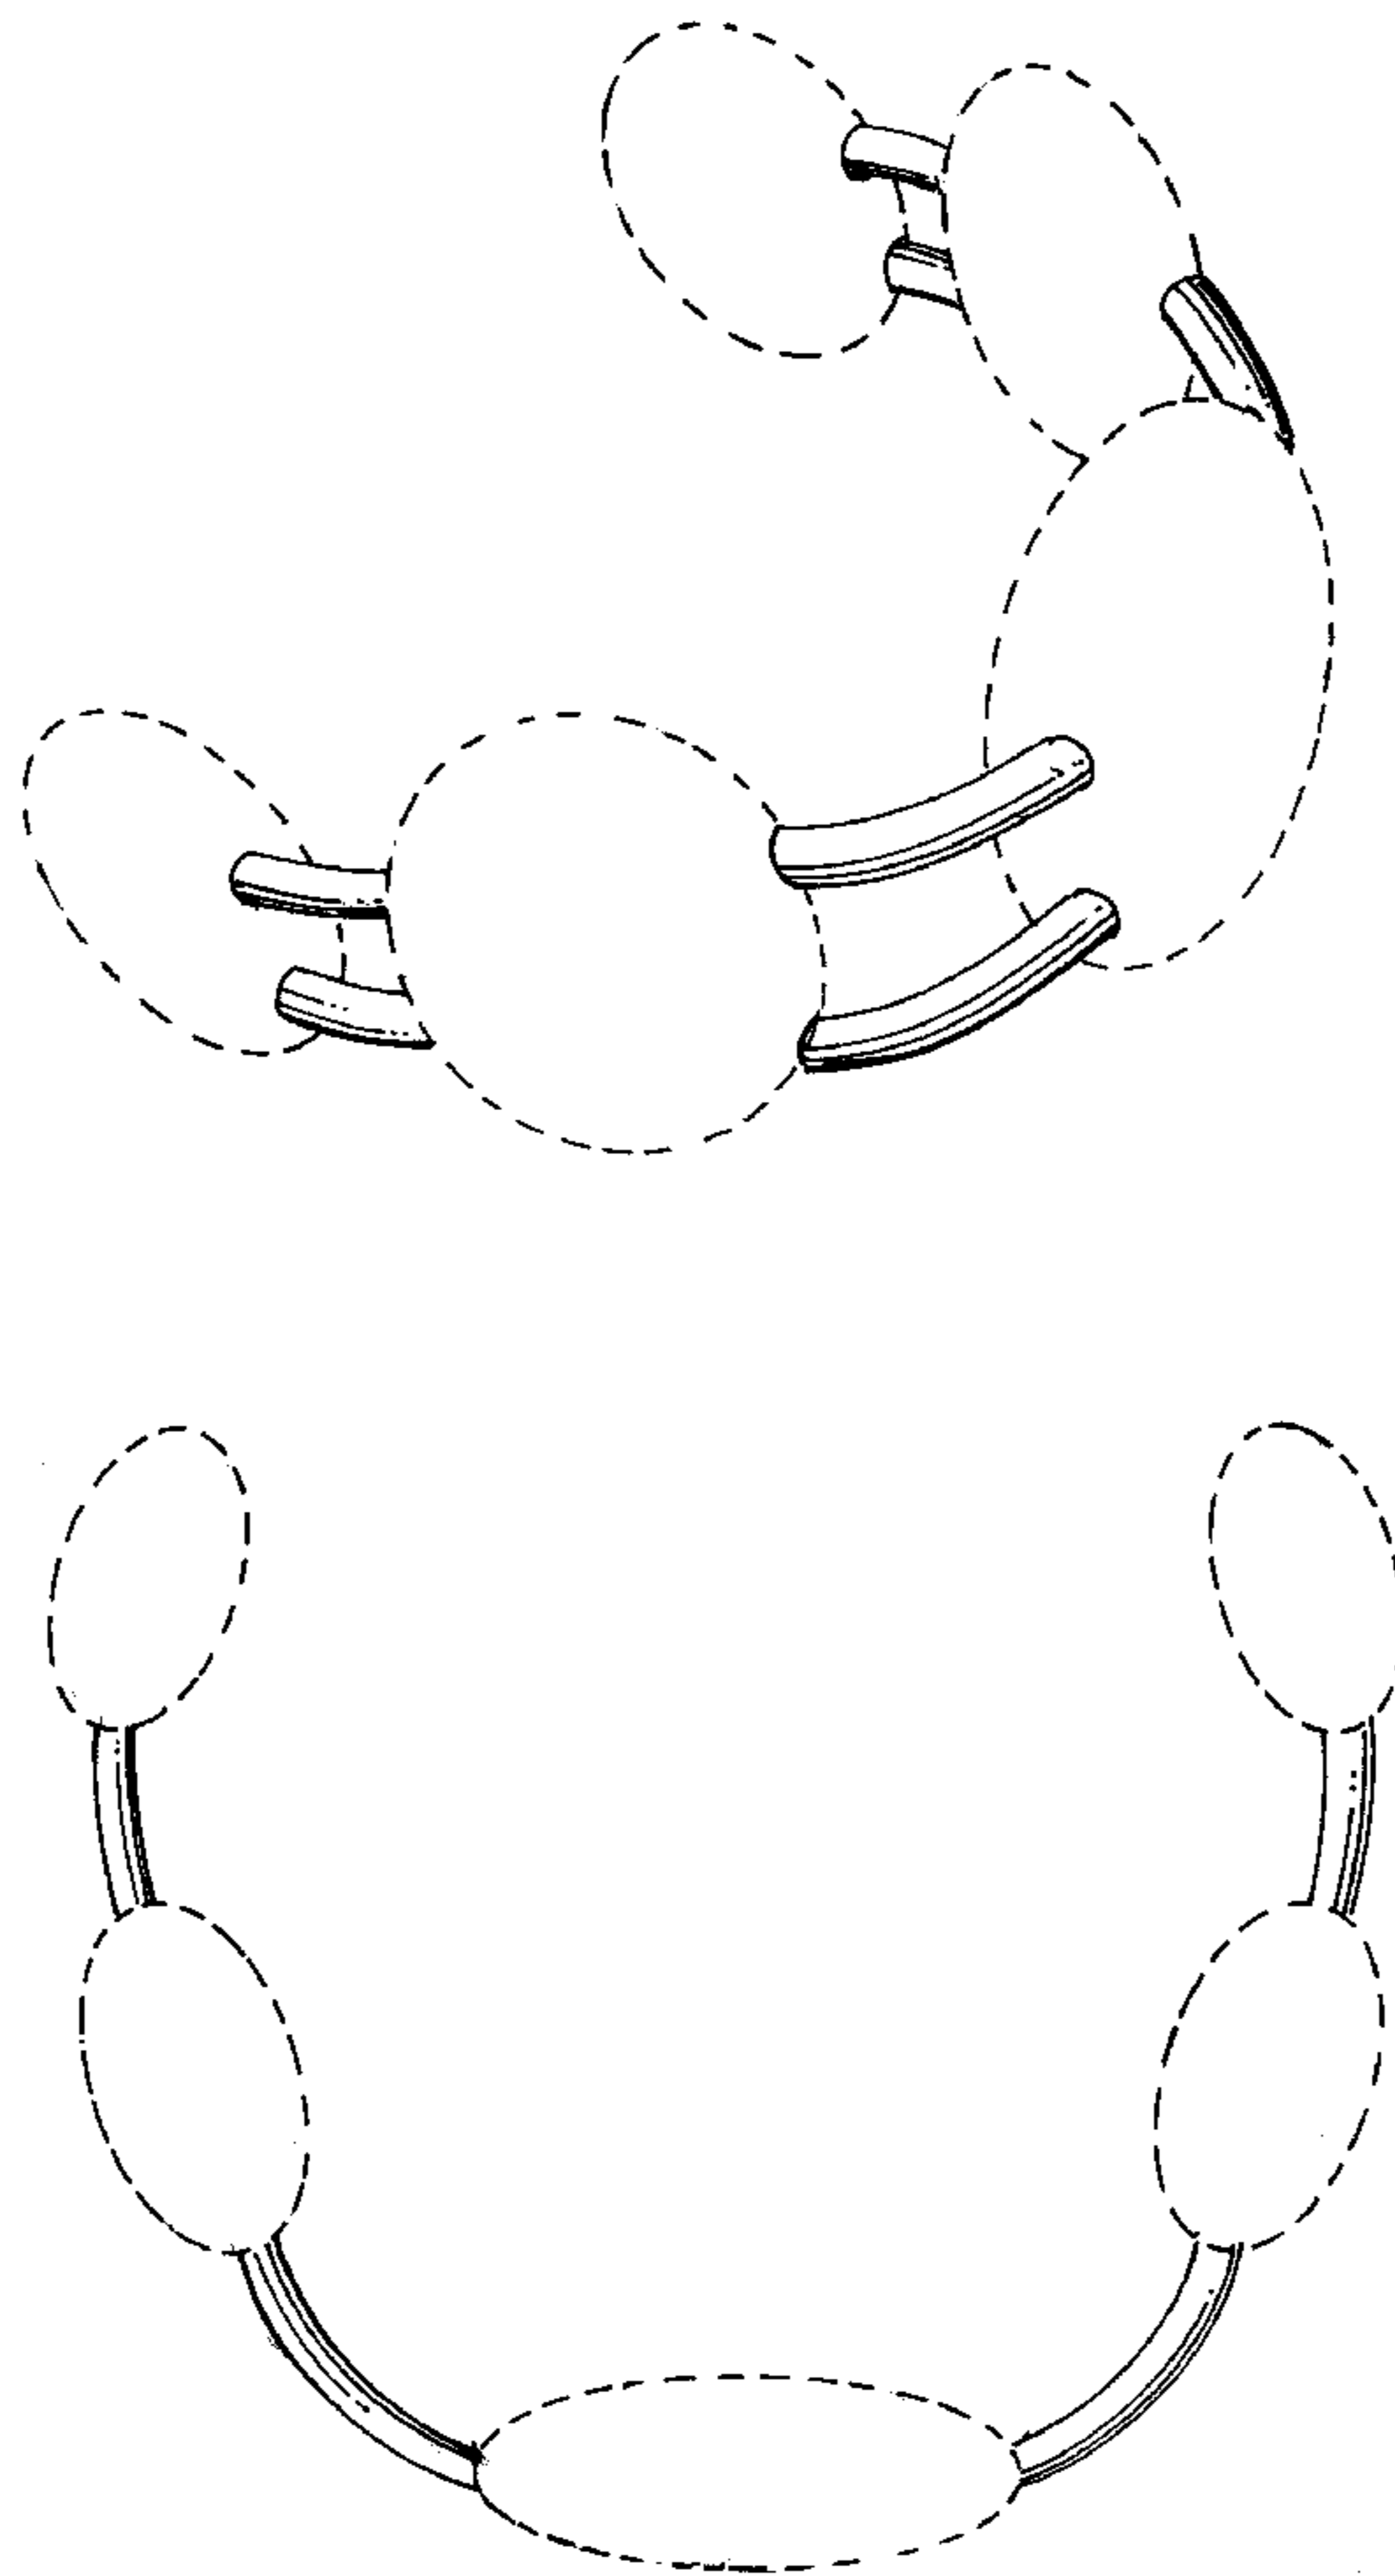

FIG. 1 is a top perspective view of a neck therapy device of the presently preferred embodiment of the present invention; FIG. 2 is a back elevation view of the neck therapy device shown in FIG. 1, the apparatus shown as it would be placed about a neck of a user and so that the therapy orbs shown in phantom could provide at least one of heat, cold, pressure and aroma to a user;

FIG. 3 is a left side elevation view of the neck therapy device shown in FIGS. 1 and 2, the right side elevation view being a mirror image thereof;

FIG. 4 is a top elevation view of the neck therapy device of FIGS. 1–3, the bottom elevation view being the same; and, FIG. 5 is a front elevation view.

The broken line showing is for illustrative purposes only and forms no part of the claimed design.
