

US00D539426S

(12) **United States Design Patent**  
**Callaghan**

(10) **Patent No.:** **US D539,426 S**

(45) **Date of Patent:** **\*\* Mar. 27, 2007**

(54) **EAR CURETTE**

(75) Inventor: **Sean M. Callaghan**, Hudsonville, MI (US)

(73) Assignee: **Veteren Medical Products, Inc.**, Grand Rapids, MI (US)

(\*\*) Term: **14 Years**

(21) Appl. No.: **29/241,563**

(22) Filed: **Oct. 28, 2005**

(51) **LOC (8) Cl.** ..... **24-02**

(52) **U.S. Cl.** ..... **D24/147; D24/133; D24/146**

(58) **Field of Classification Search** ..... D24/133, D24/146, 147, 156, 152; 606/160, 161, 162  
See application file for complete search history.

(57) **CLAIM**

The ornamental design for an ear curette, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view showing the bottom and right side of an ear curette according to the present invention;

FIG. 2 is an elevational view of the bottom of the ear curette of the present invention;

FIG. 3 is an elevational view of the right side of the ear curette of the present invention;

FIG. 4 is an elevational view of the top of the ear curette of the present invention;

FIG. 5 is an elevational view of the first end of the ear curette of the present invention;

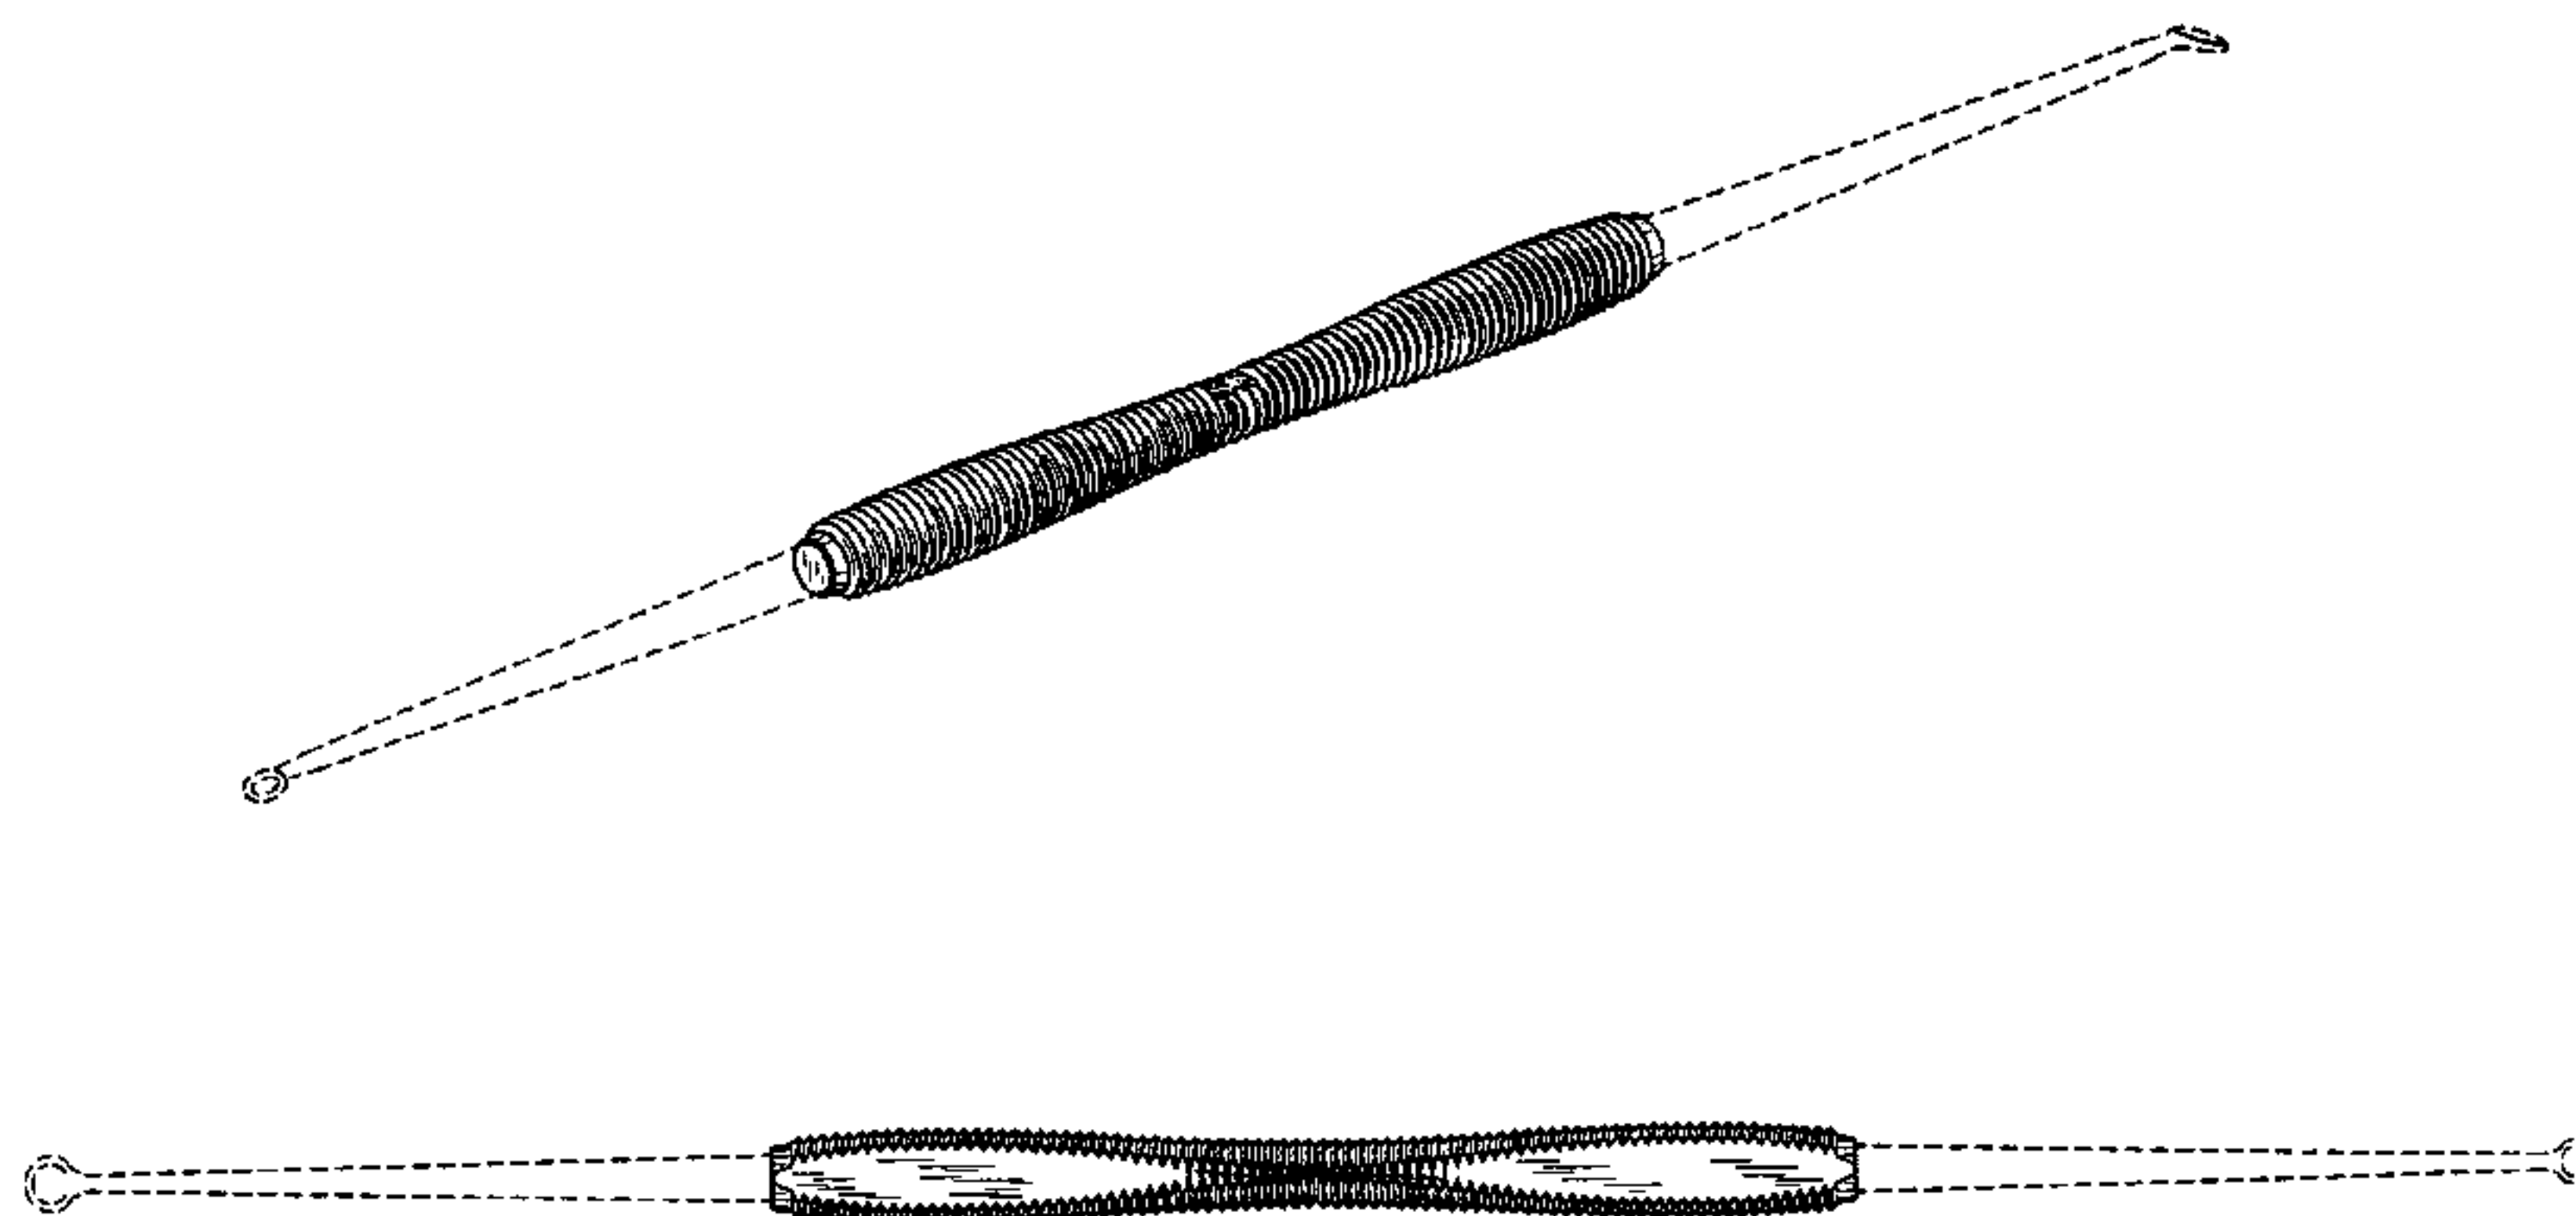

FIG. 6 is an elevational view of a second end of the ear curette of the present invention;

FIG. 7 is a perspective view showing the bottom and right side of an ear curette according to the present invention shown with different tips, which do not form a part of the present invention; and,

FIG. 8 is a perspective view showing the bottom and right side of an ear curette according to the present invention shown with different tips, which do not form a part of the present invention.

The right side elevational view shown in FIG. 3 is a mirror image of the left side of the ear curette of the present invention. Those elements that are shown in the above drawings in phantom lines do not form a part of the design sought to be patented.
