(57) **CLAIM**

The ornamental design for a protective covering for furniture, caskets, and automobiles, as shown and described.

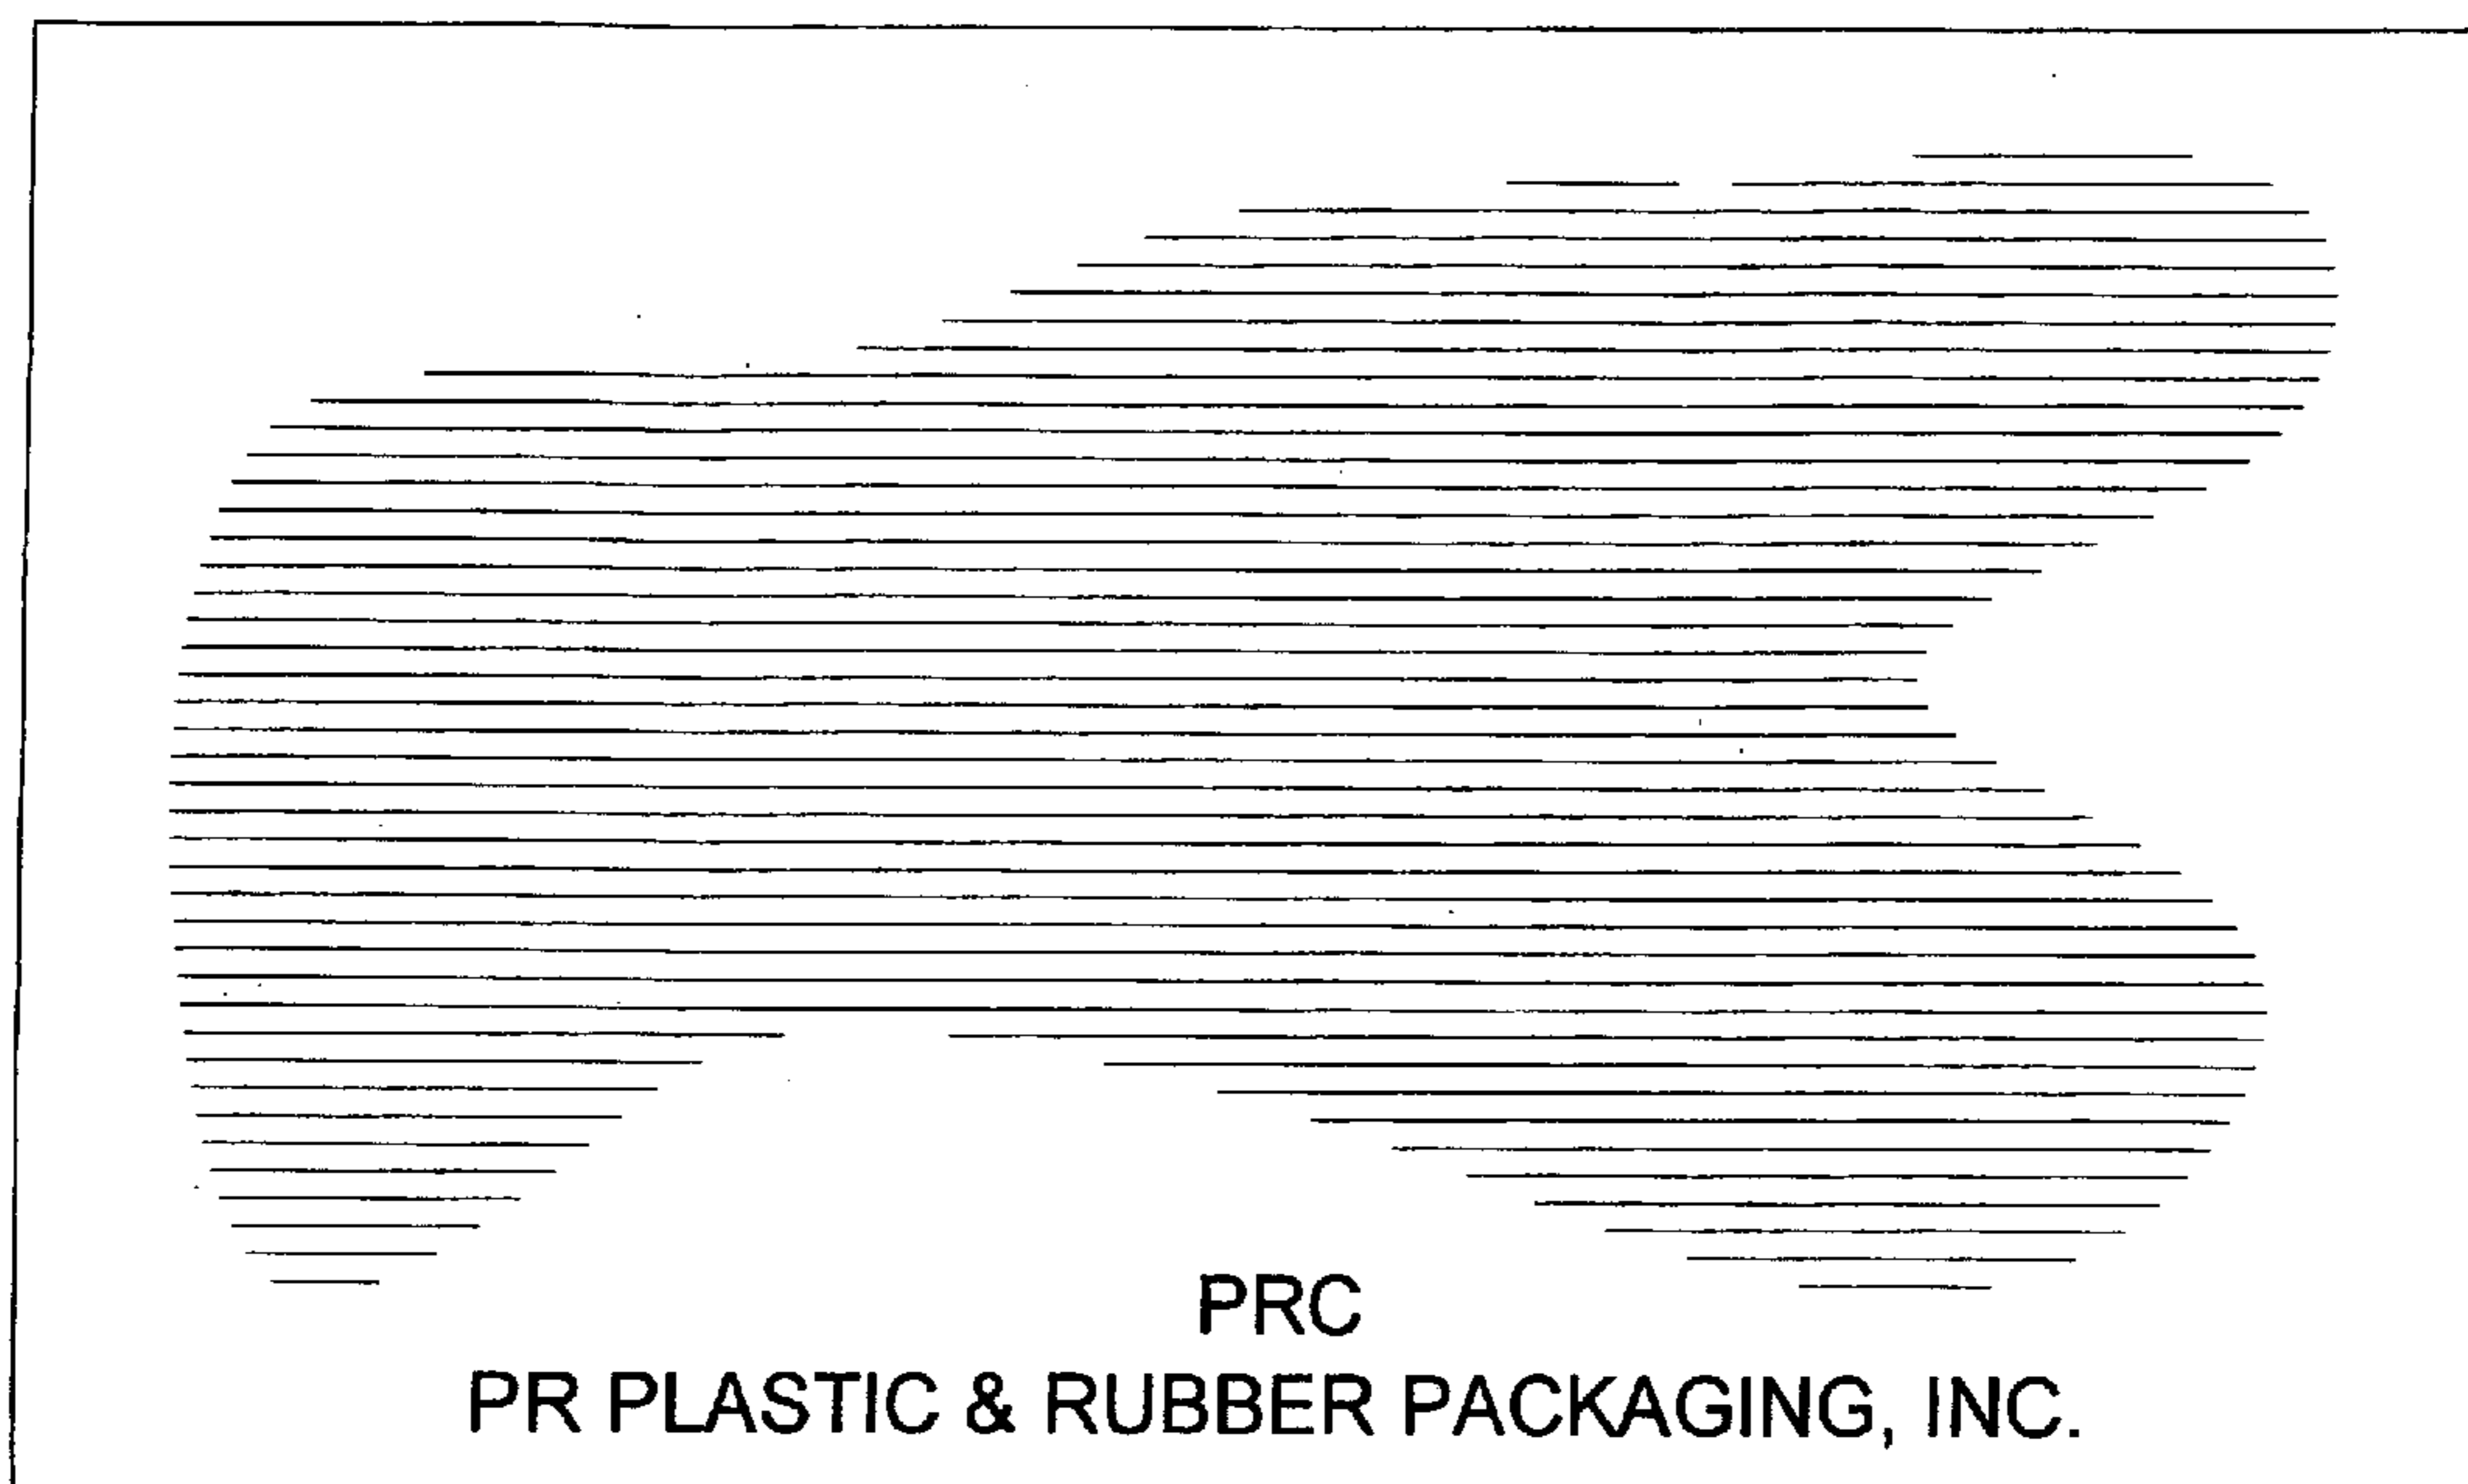

DESCRIPTION

A square or rectangular shaped breathable non-abrasive, weather resistant cover used for protecting furniture. The protective cover can be easily slipped over both sides of the furniture. Consequently, the protective cover could be used to protect the furniture from various elements such as dust, moisture buildup, debris, leaves, rain, snow, strong wind, etc. The cover could be made in different sizes and colors and produced from different materials.

FIG. 1 is a top plan view of a protective covering for furniture, caskets, and automobiles showing my new design; FIG. 2 is a front elevational view, the rear being identical thereof; and,

FIG. 3 is a side elevational view, the opposite side being identical thereof.
