(57) **CLAIM**

The ornamental design for a male underwear pocket support, as shown and described.

FIG. 1 is a front perspective view showing an outer front side of the male underwear pocket support with a portion of the outer front side of the male underwear pocket support having an opening.

FIG. 2 is a side perspective view showing one outer side of the male underwear pocket support of FIG. 1 with a portion of the outer front side of the male underwear pocket support having the opening.

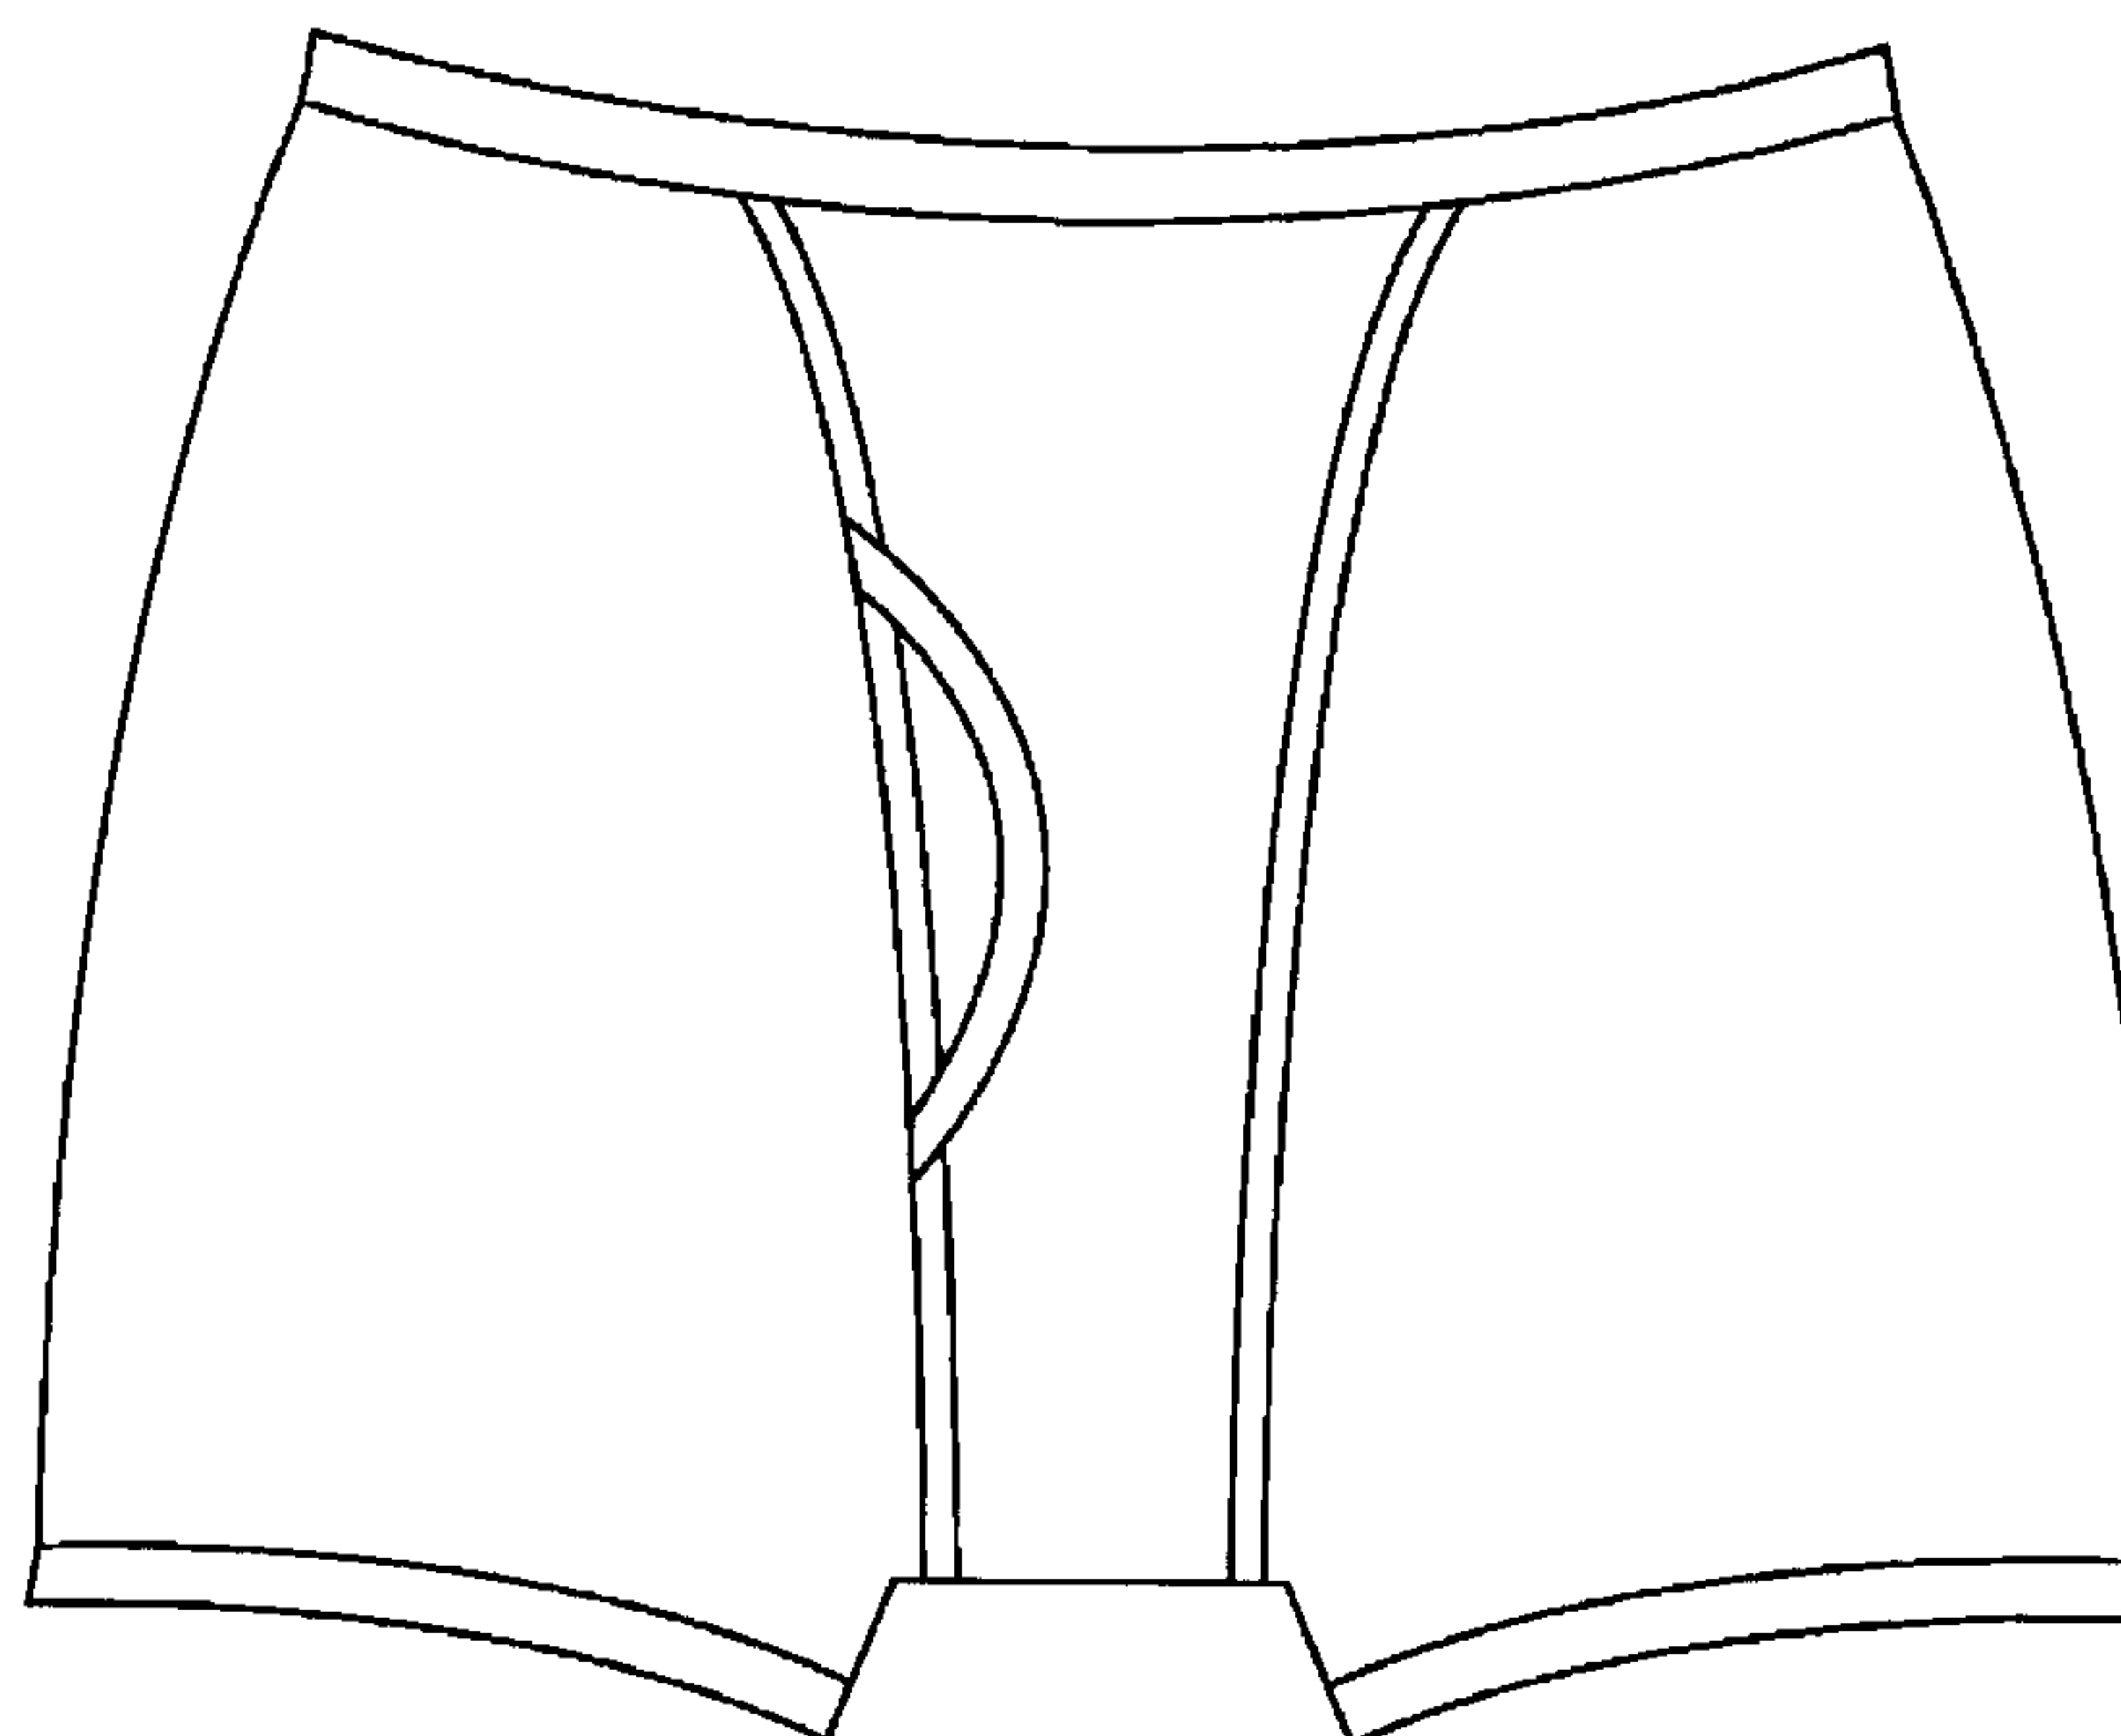

FIG. 3 is a front inside-out perspective view showing an inner front side of the male underwear pocket support of FIG. 1 with the male underwear pocket support of FIG. 1 being turned inside out, a portion of the inner front side of the male underwear pocket support having another opening contiguous with the opening of the outer front side (see FIG. 1), and a portion of the inner front side of the male underwear pocket support comprising a first member adjacent to a portion of a back side of a second member defining a pocket of the male underwear pocket support of FIG. 1.

FIG. 4 is a top perspective view showing an inner portion of the male underwear pocket support of FIG. 1 with the inner front side of the male underwear pocket support comprising the first member adjacent to a portion of the back side of the second member defining the pocket with a lower inner portion of the male underwear pocket support having a pair of openings.

FIG. 5 is a bottom perspective view showing an outer bottom side of the male underwear pocket support of FIG. 1, having the pair of openings of FIG. 4 of the male underwear pocket support; and,

FIG. 6 is a back perspective view showing an outer back side of the male underwear pocket support of FIG. 1.
