(57) **CLAIM**

The ornamental design of a chair, as shown and described.

DESCRIPTION

FIG. 1 is a first perspective view of the chair showing my new design.
FIG. 2 is a mirror image perspective view of the design shown in FIG. 1; and,
FIG. 3 is the perspective view of the chair shown in FIG. 1, with one of the front legs broken away to show better the double leaf pattern of the lower leg brackets of the chair. The “broken” leg does not form a part of the claimed design.
The design of the rear side (not shown) of the chair’s backrest member is identical to the front side of the chair’s backrest member, as illustrated in both figures. Likewise, the design of the bottom side of the chair’s seat portion (not shown) is identical to the top side of the chair’s seat portion, as illustrated in both figures.
