(57) **CLAIM**

We claim the ornamental design for a round door handle, substantially as shown and described.

DESCRIPTION

FIG. **1** is a perspective view of the first embodiment of the round door handle showing our new design,
FIG. **2** is another perspective view of the handle shown in FIG. **1**.
FIG. **3** is a top plain view of the handle shown in FIG. **1**.
FIG. **4** is an elevation view from the top edge of the handle, with the bottom edge elevation view being a mirror image.
FIG. **5** is an elevation view from the left side of the handle.
FIG. **6** is an elevation view from the right side of the handle.
FIG. **7** is a perspective view of a second embodiment of the round door handle showing our new design, the difference being the solid actuation paddle and button;
FIG. **8** is another perspective view of the round door handle shown in FIG. **7**;
FIG. **9** is a top plan view of the round door handle shown in FIG. **7**;
FIG. **10** is an elevation view from the top edge of the round door handle, with the bottom edge elevation view being a mirror image;
FIG. **11** is an elevation view from the left side of the round door handle of FIG. **7**;
FIG. **12** is an elevation view from the right side of the round door handle of FIG. **7**;
FIG. **13** is a perspective view of a third embodiment of the round door handle showing our new design, the difference being the actuation paddle with an opened end and lock cylinder;
FIG. **14** is another perspective view of the round door handle shown in FIG. **13**;
FIG. **15** is a top plan view of the round door handle shown in FIG. **13**;
FIG. **16** is an elevation view from the top edge of the round door handle, with the bottom edge being a mirror image;
FIG. **17** is an elevation view from the left of the round door handle;
FIG. **18** is an elevation view from the right of the round door handle;
FIG. **19** is a perspective view of a fourth embodiment of the round door handle showing our new design, the difference being the actuation paddle with open end and button;
FIG. **20** is another perspective view of the handle in FIG. **19**;
FIG. **21** is a top plan view of the round door handle of FIG. **19**;
FIG. **22** is an elevation view from the top edge of the round door handle with the bottom edge being a mirror image;
FIG. **23** is an elevation view from the left side of the round door handle; and,
FIG. **24** is an elevation view from the right side of the round door handle.
The broken lines are for illustrative purposes only and forms no part of the claimed design.
