(57) **CLAIM**

We claim the ornamental design for an integrally-formed closure for a container, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the integrally-formed closure for a container in an open position.

FIG. 2 is a top view of the integrally-formed closure for a container in an open position.

FIG. 3 is a side elevation view of the integrally-formed closure for a container in an open position; and,

FIG. 4 is a side elevation view of the integrally-formed closure for a container in a closed position.

The ornamental design which is claimed is shown in solid lines in the drawings. The broken lines in the drawings are for illustrative purposes only and form no part of the claimed design.
