(57) **CLAIM**

The ornamental design for a clamp for a portable air blower.

DESCRIPTION

FIG. 1 is a front-left side isometric view of a clamp for a portable air blower showing my new design in use with the clamp connected to a flexible gooseneck and connected to a vertical pole;

FIG. 2 is a front-left side elevational view of a clamp for a portable air blower showing my new design in use with the clamp in an open position and the fan rotated;

FIG. 3 is an enlarged front-left view of the clamp thereof in a closed position;

FIG. 4 is an enlarged front-left view of the clamp thereof in an open position;

FIG. 5 is an enlarged exploded view of the clamp showing elements visible within the recesses of the clamp assembly;

FIG. 6 is an enlarged top view showing the clamp in an open position;

FIG. 7 is an enlarged top view showing the clamp in a closed position;

FIG. 8 is an enlarged left side view of the clamp;

FIG. 9 is an enlarged right side view of the clamp;

FIG. 10 is an enlarged back side view of the clamp

FIG. 11 is an enlarged front view of the clamp; and,

FIG. 12 is an enlarged bottom side view of the clamp.

The broken line showing of a portable air blower, with a flexible gooseneck and a vertical pole is included for the purpose of illustrating environmental structure and forms no part of the claimed design.
