(57) **CLAIM**

The ornamental design for bottle closure, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the front, right side and top of a bottle closure incorporating the design of our new invention, shown in a closed position;

FIG. 2 is a right-side elevational view thereof in the closed position;

FIG. 3 is a rear elevational view thereof in the closed position;

FIG. 4 is a left-side elevational view thereof in the closed position;

FIG. 5 is a front elevational view thereof in the closed position;

FIG. 6 is a top plan view thereof in the closed position;

FIG. 7 is a bottom plan view thereof;

FIG. 8 is a perspective view of a bottle closure incorporating the design of our new invention, shown in an open position;

FIG. 9 is a right-side elevational view thereof in the open position;

FIG. 10 is a rear elevational view thereof in the open position;

FIG. 11 is a left-side elevational view thereof in the open position;

FIG. 12 is a front elevational view thereof in the open position;

FIG. 13 is a top plan view thereof in the open position; and,

FIG. 14 is a bottom plan view thereof.

The broken lines immediately adjacent to the shaded areas represent the bounds of the claim and all other broken lines are for illustrative purposes only. None of the broken lines form a part of the claimed design.
