**DESCRIPTION**

FIG. 1 is a perspective view of an end panel accessory  
showing visible environmental structure of an associated  
shelving unit in broken lines, according to an embodiment of  
the invention.

FIG. 2 is an additional perspective view thereof.

FIG. 3 is a partial perspective view thereof, showing visible  
environmental structure of a first billboard received in a  
right-hand side vertical extender and a second billboard  
secured to a face of a left-hand side vertical extender in  
broken lines.

FIG. 4 is a front view thereof.

FIG. 5 is a back view thereof.

FIG. 6 is a right end view thereof.

FIG. 7 is a left end view thereof.

FIG. 8 is a top view thereof.

FIG. 9 is a bottom view thereof; and,

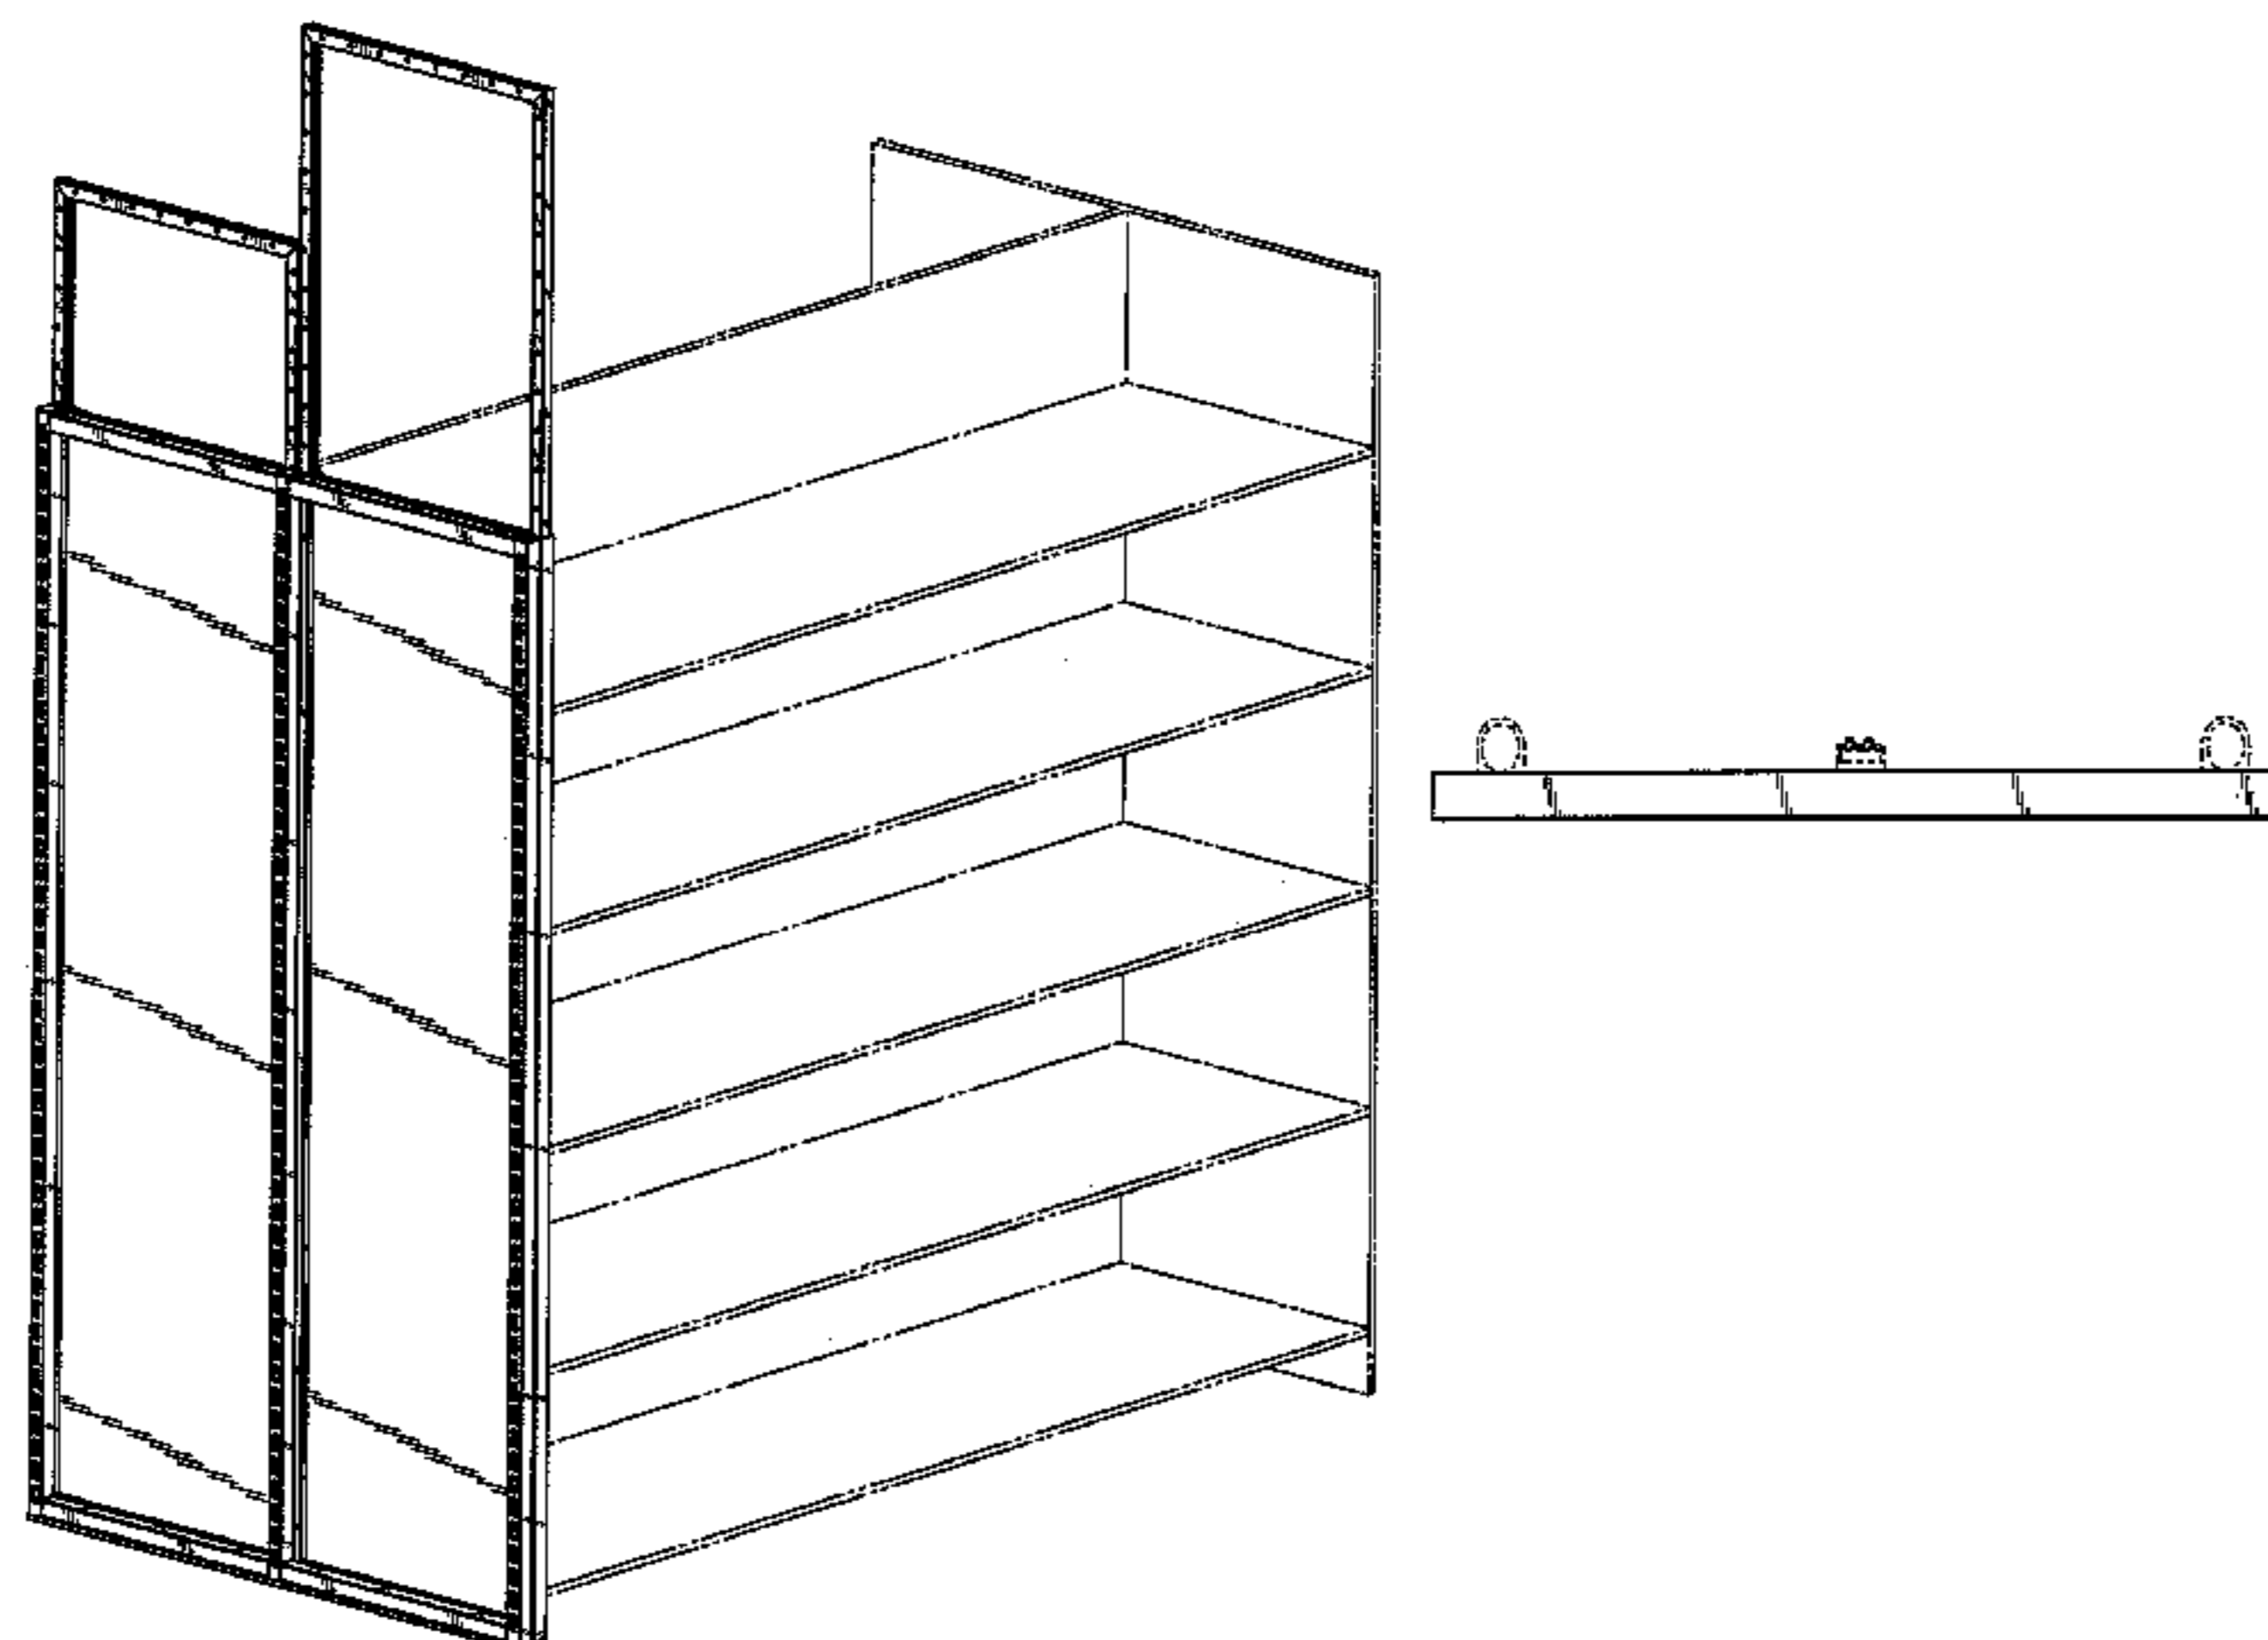

FIG. 10 is a perspective view of an end panel accessory,  
according to a second embodiment of the invention, show-  
ing the end panel accessory without mounting holes and  
showing a right-hand vertical extender and a left-hand  
vertical extender in a second position, it being understood  
that the other views not shown are the same as those of the  
first embodiment.
