(57) **CLAIM**

The ornamental design for the ink bottle, as shown and described.

DESCRIPTION

FIG. 1 illustrates an isometric top view of an ink bottle configured to be used with an ink jet printer, according to an embodiment of the present invention.

FIG. 2 illustrates an isometric bottom view of the ink bottle, according to an embodiment of the present invention.

FIG. 3 illustrates a front elevation view of the ink bottle, according to an embodiment of the present invention.

FIG. 4 illustrates a rear elevation view of the ink bottle, according to an embodiment of the present invention.

FIG. 5 illustrates a first lateral elevation view of the ink bottle, according to an embodiment of the present invention.

FIG. 6 illustrates a second lateral elevation view of the ink bottle, according to an embodiment of the present invention.

FIG. 7 illustrates a top plan view of the ink bottle, according to an embodiment of the present invention.

FIG. 8 illustrates a bottom plan view of the ink bottle, according to an embodiment of the present invention.

FIG. 9 illustrates an isometric top view of the ink bottle, according to an embodiment of the present invention.

FIG. 10 illustrates an isometric bottom view of the ink bottle, according to an embodiment of the present invention.

FIG. 11 illustrates a front elevation view of the ink bottle, according to an embodiment of the present invention.

FIG. 12 illustrates a rear elevation view of the ink bottle, according to an embodiment of the present invention.

FIG. 13 illustrates a first lateral elevation view of the ink bottle, according to an embodiment of the present invention.

FIG. 14 illustrates a second lateral elevation view of the ink bottle, according to an embodiment of the present invention.

FIG. 15 illustrates a top plan view of the ink bottle, according to an embodiment of the present invention; and,

FIG. 16 illustrates a bottom plan view of the ink bottle, according to an embodiment of the present invention.

While an ink bottle is shown, it is to be noted that the features shown and described may be positioned on opposite sides of the ink bottle. For example, the locating feature shown in FIG. 12 may be positioned on the first or second sides of the ink bottle.

The broken line showing the ink bottle is included for the purpose of illustrating only and forms no part of the claimed design.
