(57) **CLAIM**

The ornamental design for an automotive windshield display projector, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the automotive windshield display projector of the present design. The location of openings and connectors in the display projector housing are shown in phantom, and form no part of the claimed design;

FIG. 2 is a bottom plan view of the the automotive windshield projector of the present design. Connectors, buttons, and openings in the housing are shown in phantom, and form no part of the claimed design;

FIG. 3 is a right side view of the automotive windshield display projector of the present design. The left side is identical, and a duplicative left side view is correspondingly not shown.

FIG. 4 is a front view of the automotive windshield display projector of the present design. Connectors, buttons, and openings in the housing are shown in phantom, and form no part of the claimed design;

FIG. 5 is a rear view of the automotive windshield display projector of the present design; and,

FIG. 6 is a top plan view of the automotive windshield display projector of the present design.
