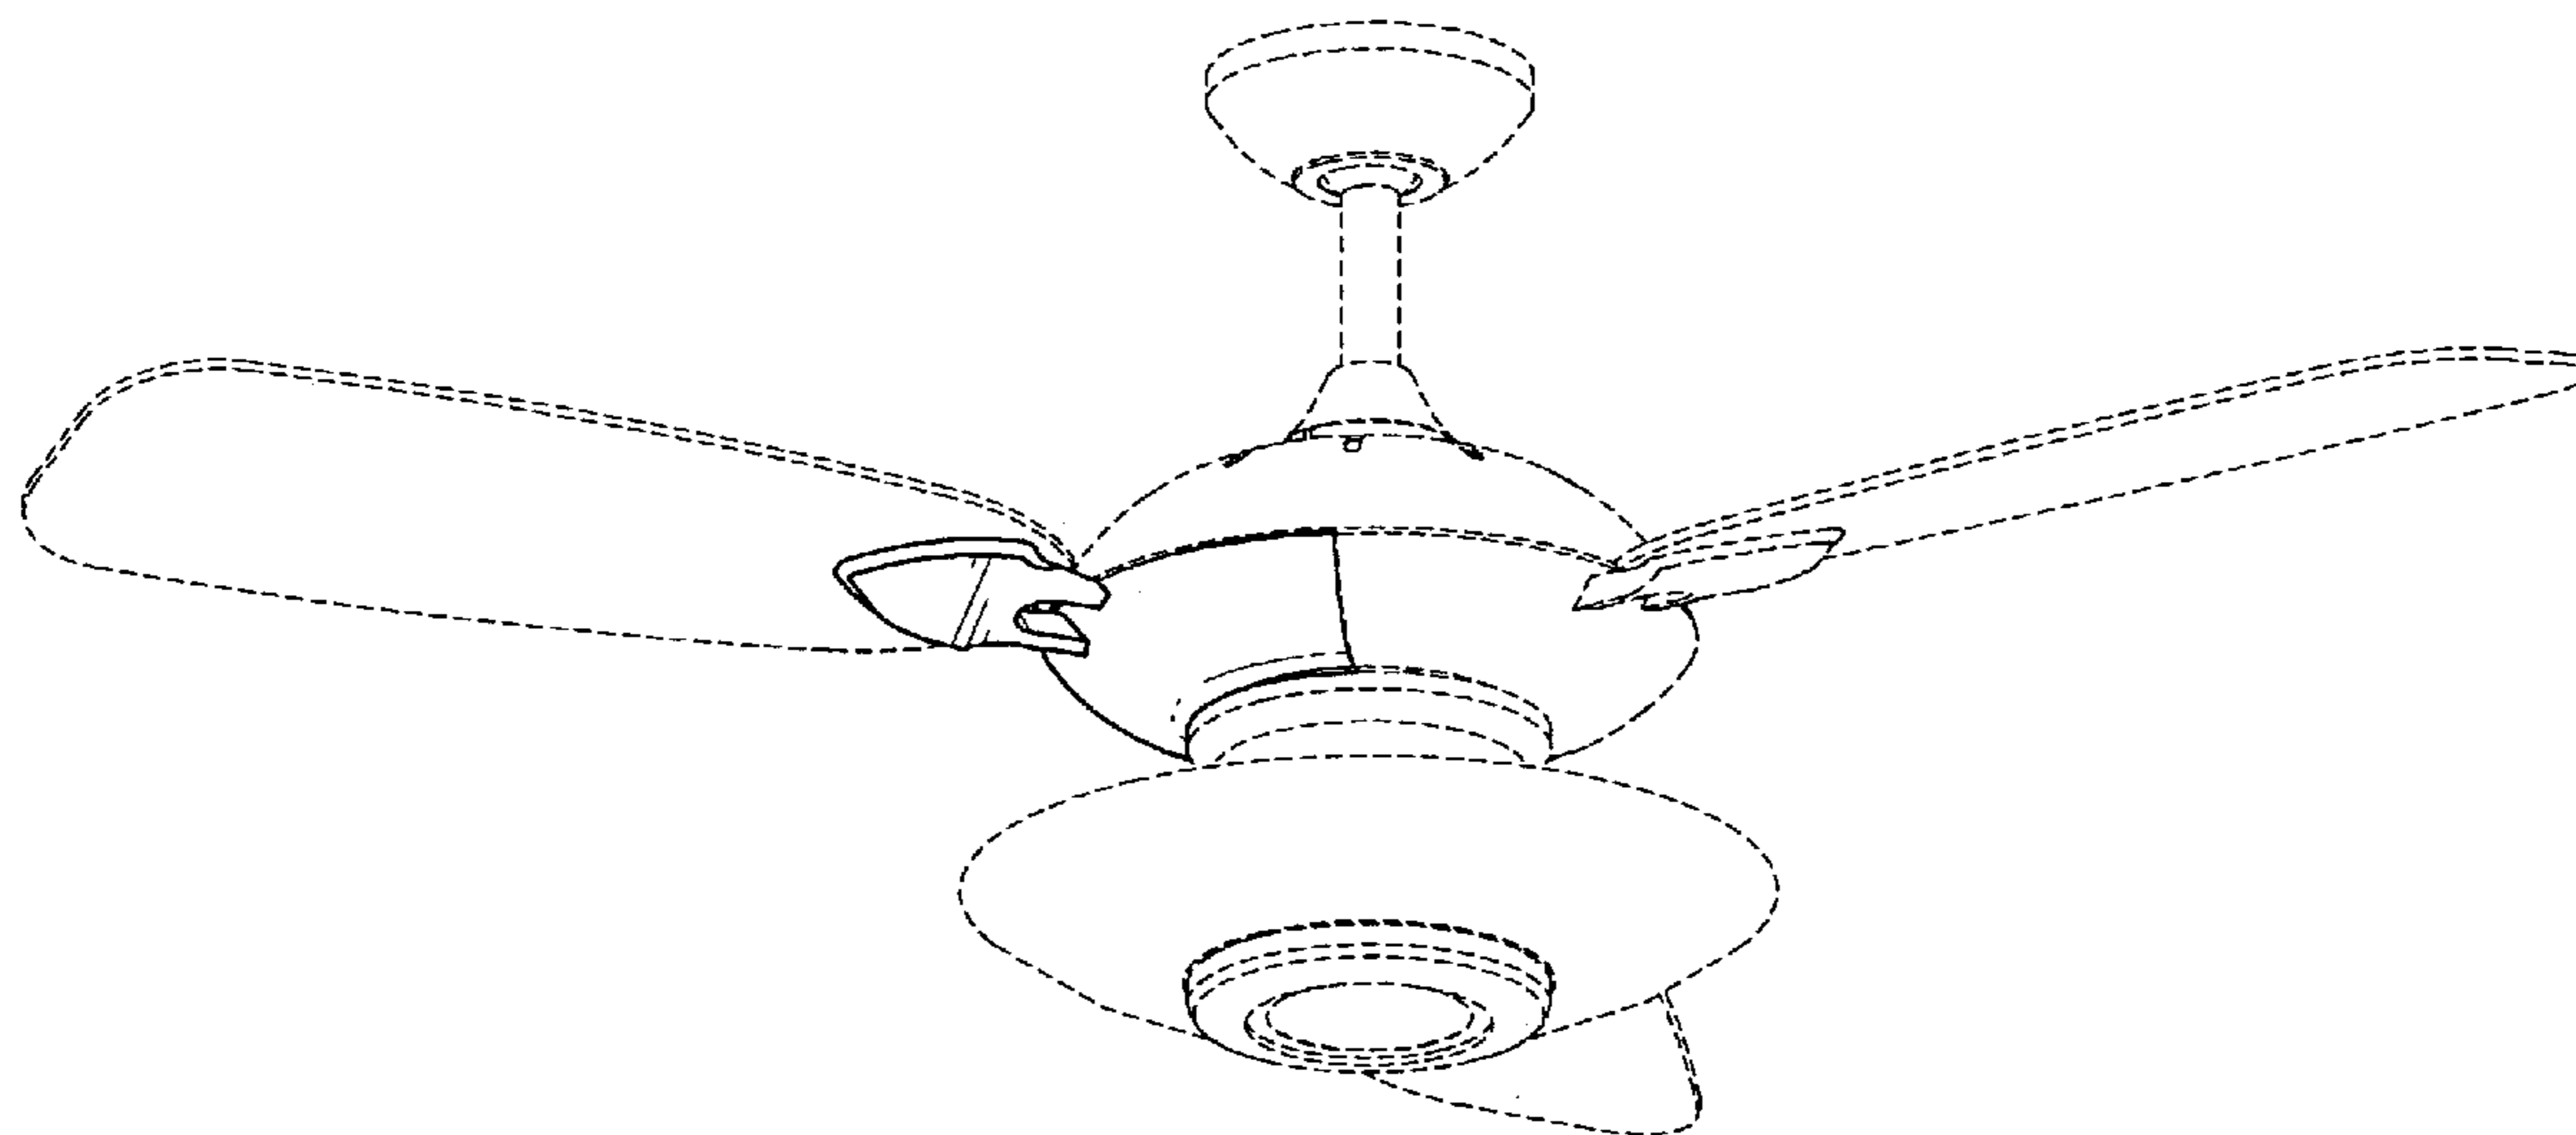

FIG. 1 is a perspective view of a combined lower portion of a ceiling fan motor housing and blade holders unit showing my new design in use.

FIG. 2 is an enlarged perspective view of the blade holder in accordance with the present invention; and,

FIG. 3 is an enlarged perspective view of the blade holder in accordance with the present invention.

The broken line showing of the blades, canopy, support rod and light fixture of a ceiling fan in FIG. 1 is included for the purpose of illustrating environmental structure and forms no part of the claimed design.
