FIG. 1 is a front view of a first embodiment of the invention as worn by a model shown in dashed lines;

FIG. 2 is a right side view of the first embodiment of the invention as worn by a model shown in dashed lines;

FIG. 3 is a left side view of the first embodiment of the invention as worn by a model shown in dashed lines;

FIG. 4 is a back view of the first embodiment of the invention as worn by a model shown in dashed lines;

FIG. 5 is a front view of the first embodiment of the invention as worn by a model shown in dashed lines, illustrating the invention in an arrangement to allow breast feeding;

FIG. 6 is a right side view of the invention as worn by a model shown in dashed lines, illustrating the invention in an arrangement to allow breast feeding;

FIG. 7 is a front view of the first embodiment of the invention illustrating a tie of the invention;

FIG. 8 is a front view of the of the first embodiment of the invention laid flat showing the inside;

FIG. 9 is a back view of the first embodiment of the invention laid flat showing the outside;

FIG. 10 is a front view of a second embodiment of the present invention as worn by a model shown in dashed lines;

FIG. 11 is a right side view of the second embodiment of the invention as worn by a model shown in dashed lines;

FIG. 12 is a left side view of the second embodiment of the invention as worn by a model shown in dashed lines;

FIG. 13 is a back view of the second embodiment of the invention as worn by a model shown in dashed lines;

FIG. 14 is a front view of the second embodiment of the invention as worn by a model shown in dashed lines, with the clothing arranged for breast feeding;

FIG. 15 is a right side view of the second embodiment of the invention showing as worn by a model shown in dashed lines, with the clothing arranged for breast feeding;

FIG. 16 is a front view of the second embodiment of the invention as worn by a model shown in dashed lines illustrating a tie;

FIG. 17 is a front view of the second embodiment of the invention laid flat showing the inside; and,

FIG. 18 is a back view of the second embodiment of the invention laid flat showing the outside.

The dashed lines do not form any part of the ornamental design.

The broken lines on the surface of the garment in FIGS. 1-18 represent stitching.
