(57) **CLAIM**

The ornamental design for a vehicle front bumper, as shown and described.

**DESCRIPTION**

FIG. 1 is a right side front perspective view of a vehicle front bumper;

FIG. 2 is a left side front perspective view of a vehicle front bumper;

FIG. 3 is a front elevational view of the vehicle front bumper;

FIG. 4 is a top plan view of the vehicle front bumper;

FIG. 5 is a bottom plan view of the vehicle front bumper; and,

FIG. 6 is a left side elevational view of the vehicle front bumper (the right side view is a mirror of the left side view and is not shown).

The vehicle front fascia is designed to blend with surfaces of adjacent vehicle panels. To the extent that any feature lines are illustrated, they are intended to illustrate the crest and valley of the feature and are not necessarily sharp bends in the part. Shading is used to illustrate the curvature of the part and not color.
