(57) **CLAIM**

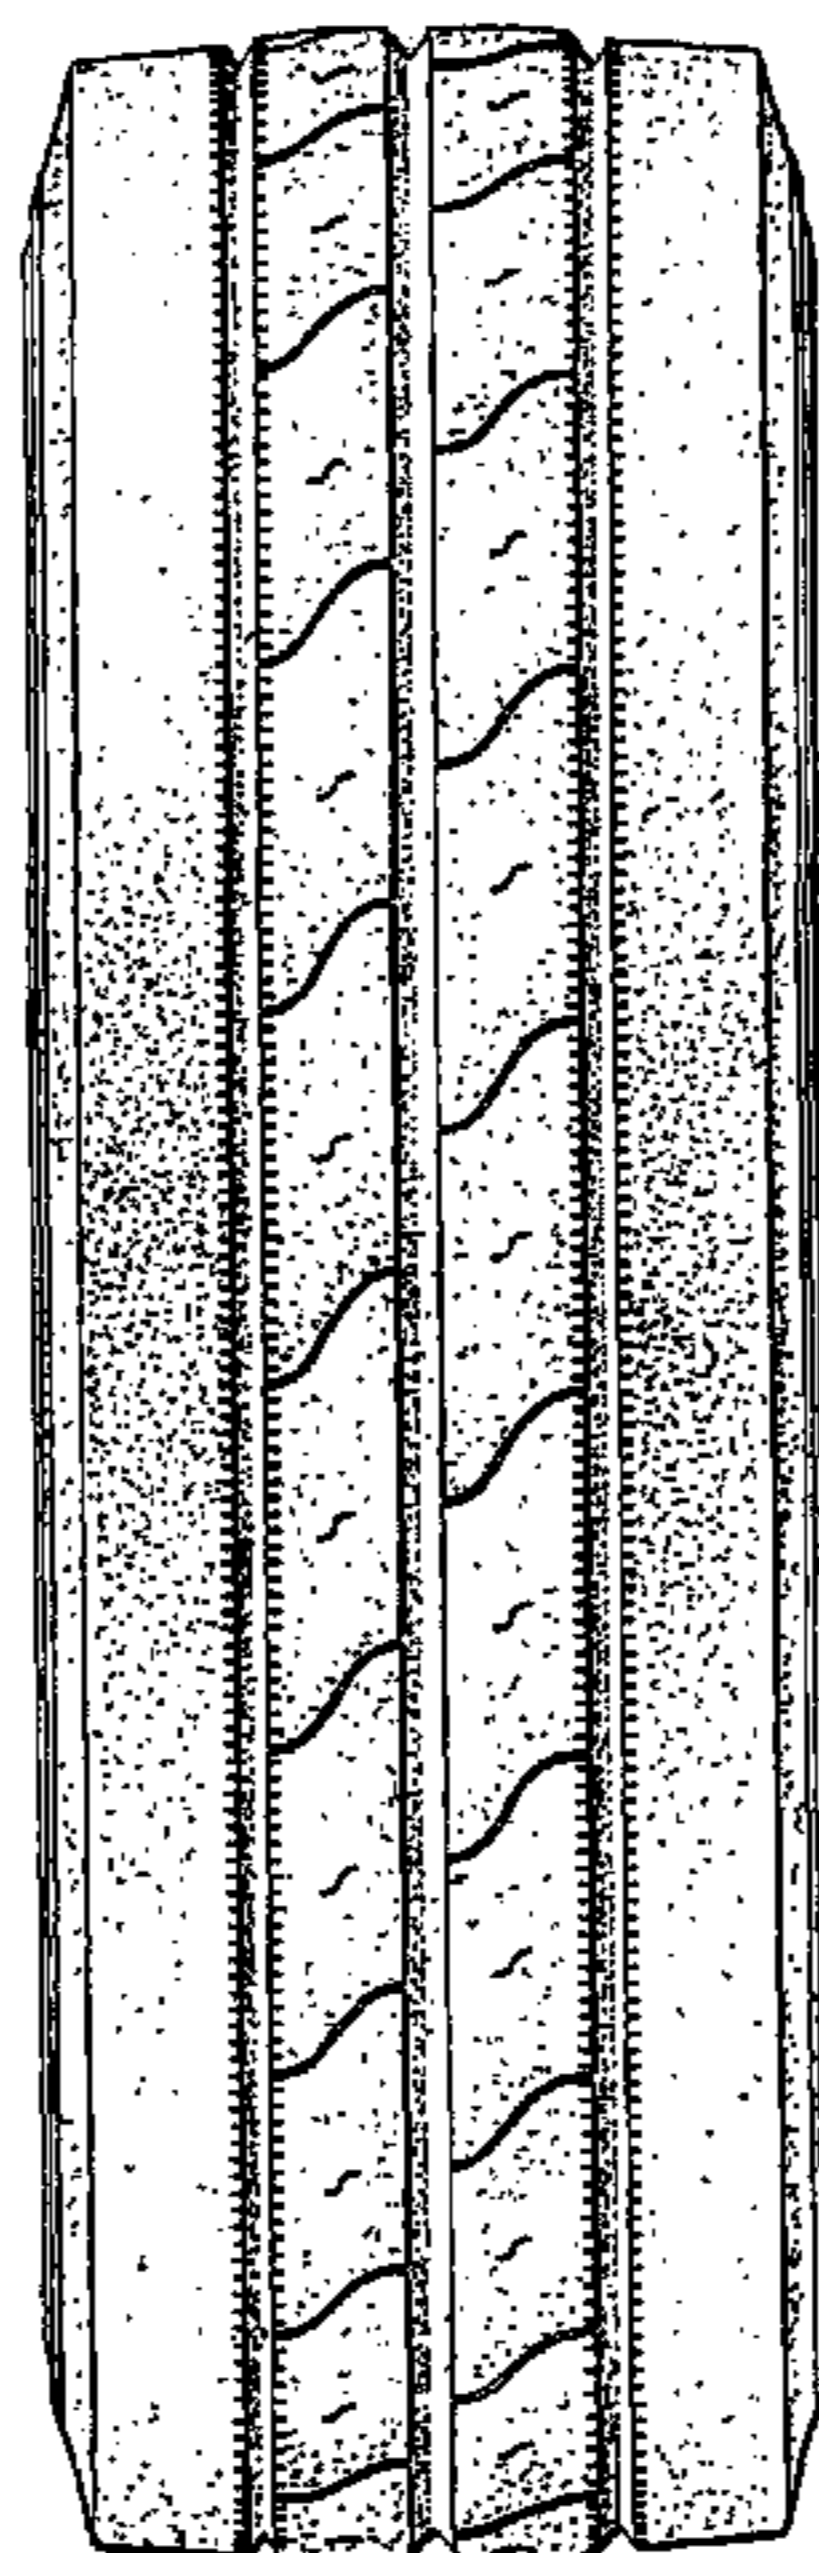

The ornamental design for a tread band for pneumatic tire, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a tread band for pneumatic tire showing my new design, it being understood that the tread pattern repeats circumferentially throughout the outer circumference; and,

FIG. 2 is a side elevational view of one side of the tread band shown in FIG. 1, it being understood that the other side is a mirror image of FIG. 2, and that the parts shown in broken lines form no part of the design.
