(57) **CLAIM**

I claim the ornamental design for the ergonomic nail clipper attachment, as shown and described.

**DESCRIPTION**

The present design relates to an attachment, which when universally attached to a conventional nail clipper, provides ergonomic gripping for easier manipulation of the nail clipper. The attachment of the present design can be folded into a collapsed attitude so as to be further portable.

FIG. 1 is a top perspective view of the ergonomic nail clipper attachment of the present design.

FIG. 2 is a top perspective view of the ergonomic nail clipper attachment of the present design.

FIG. 3 is a top plan view from below of the ergonomic nail clipper attachment of the present design.

FIG. 4 is a rear elevation view of the ergonomic nail clipper attachment of the present design.

FIG. 5 is a right side elevation view of the ergonomic nail clipper attachment of the present design.

FIG. 6 is a left side elevation view of the ergonomic nail clipper attachment of the present design; and,

FIG. 7 is a front elevation view of the ergonomic nail clipper attachment of the present design.
