(57) **CLAIM**

The ornamental design for a card case with data register, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of the card case with data register in a partially open position.

FIG. 2 is a rear perspective view thereof in a partially open position.

FIG. 3 is a rear perspective view with a card shown inserted in the outside pocket.

FIG. 4 is a front view thereof.

FIG. 5 is a rear view thereof with a card shown inserted in the outside pocket.

FIG. 6 is a rear view thereof, without a card shown in the outside pocket.

FIG. 7 is a view from one side thereof in a partially open position.

FIG. 8 is a view from the other side thereof in a partially open position.

FIG. 9 is a top view thereof in a partially open position.

FIG. 10 is a bottom view thereof in a partially open position.

FIG. 11 is a bottom view thereof with the data register removed.

FIG. 12 is a view of the inside of the card case with data register fully opened with the data register in place, and a portion of the data register inserted and visible behind a transparent/translucent window.

FIG. 13 is a view from the outside.

FIG. 14 is a view from the outside with a card shown inserted in the outside pocket.

FIG. 15 is a view from one side of card case with data register in the fully opened configuration.

FIG. 16 is a view from the other side thereof.

FIG. 17 is a top view of the card case with data register, in the fully opened position.

FIG. 18 is a bottom view thereof.

FIG. 19 is a view from one side of the card case with data register, shown fully closed. The view of the other side in fully closed position is a mirror image thereof.

FIG. 20 is a top view of the card case with data register shown in fully closed position.

FIG. 21 is a bottom view of the card case with data register shown in fully closed position; and,

FIG. 22 is a view of the inside of the card case with data register, in fully open position with the data register removed.

The window visible in the upper portion of FIG. 12 is transparent/translucent.

The broken line showing in FIG. 12 is for illustrative purposes only and forms no part of the claimed design.

The dashed lines are understood to represent stitching.
