(57) **CLAIM**

The ornamental design of a folding uneven stool with full width webs, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a folding uneven stool with full width webs, according to the new design, shown with the legs unfolded, and shaded to show flat, smooth surfaces; FIG. 2 is a top plan view thereof; FIG. 3 is a bottom plan view thereof, a carrying strap being shortened and wrapped on the frame of the seat for storage; FIG. 4 is a side elevation, from the left side in FIG. 1, it being appreciated that the legs are adjustable in length; FIG. 5 is a side elevation as in FIG. 4, but from the right side in FIG. 1; FIG. 6 is a front elevation view; FIG. 7 is a rear elevation view; FIG. 8 is perspective view showing the carrying strap in position for carrying and the legs folded; and, FIG. 9 is a bottom plan view showing the legs folded and the carrying strap in its storage arrangement.
