(57) **CLAIM**

The ornamental design for a disposable surgical arm board protector, as shown and described.

DESCRIPTION

FIG. 1 is a top and front perspective view of the disposable surgical arm board protector showing our new design.

FIG. 2 is a front view thereof, shown in its flattened state with hook and loop fastener bands extended to facilitate deployment;

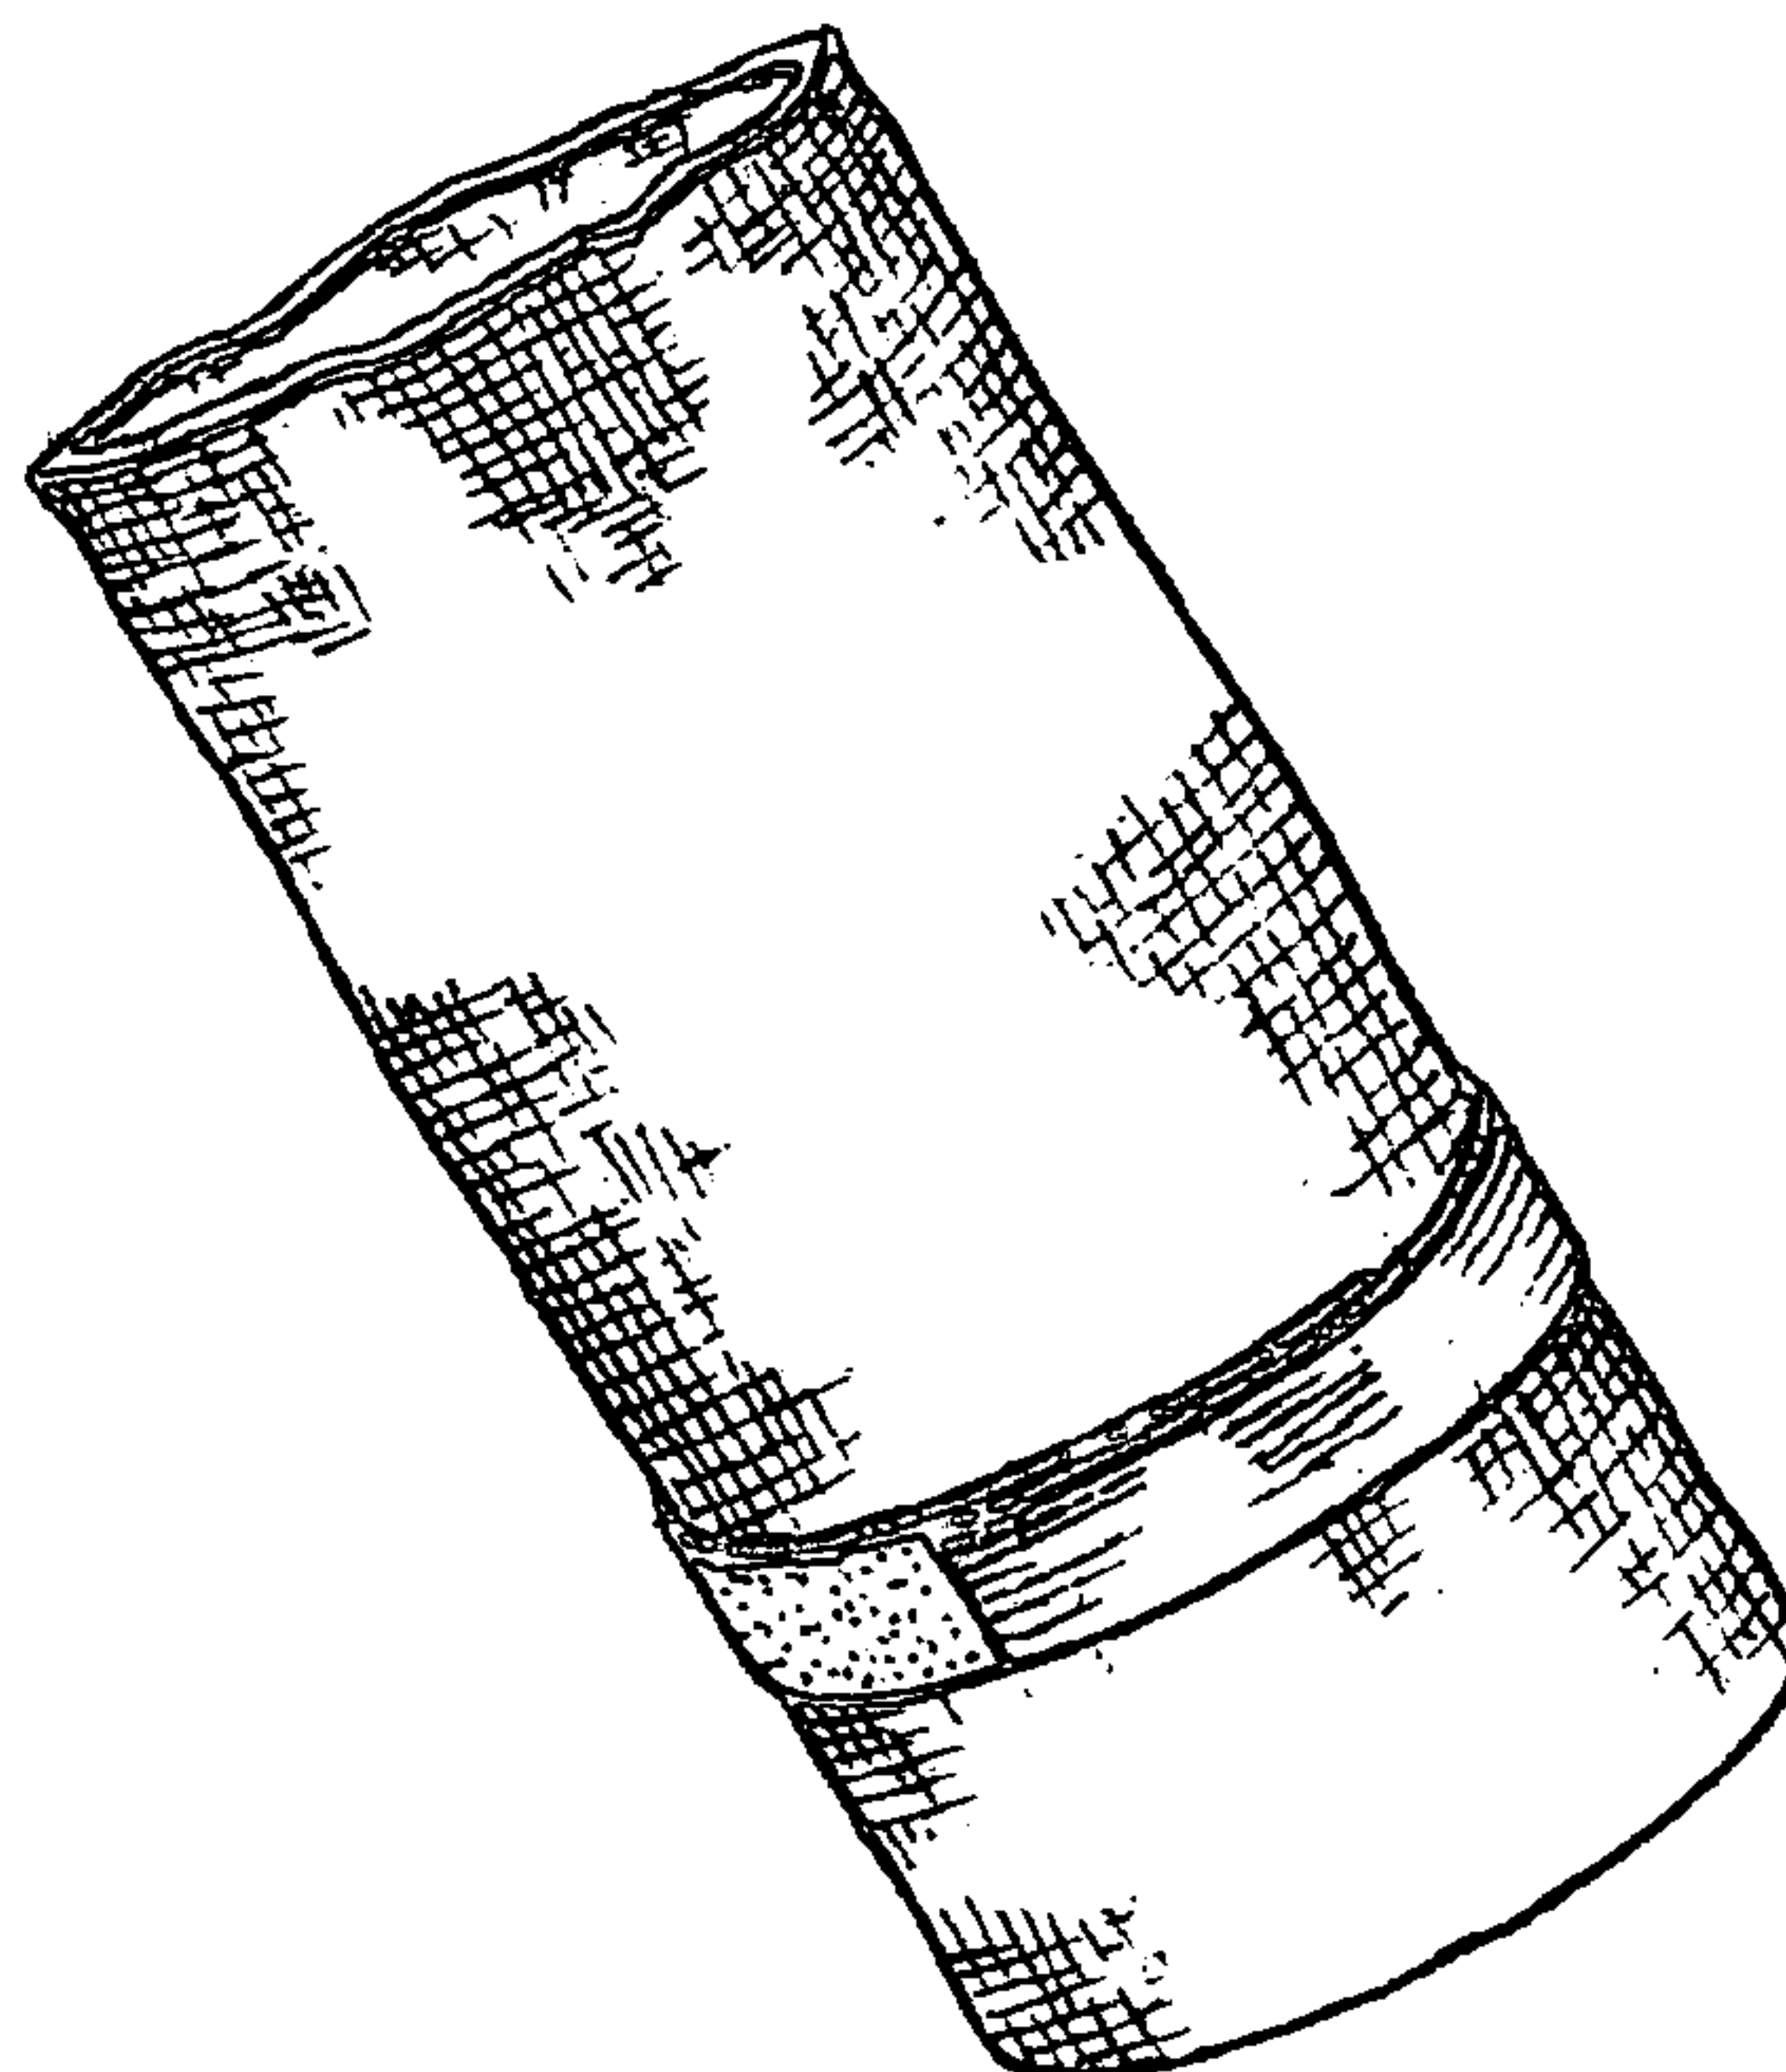

FIG. 3 is a rear view thereof, shown in its flattened state with hook and loop fastener bands extended to facilitate deployment;

FIG. 4 is a bottom view thereof, shown in deployed association upon a patient's arm supported by an arm board of a surgical table shown in broken line; and,

FIG. 5 is a side view thereof, shown in its flattened, storage state, the opposite side being of identical appearance.

The broken line showing of environmental structure is included for the purpose of illustration only and forms no part of the claimed design.
