The ornamental design for a cap, as shown and described.

DESCRIPTION

FIG. 1 is a front elevation view of my new design for a cap;
FIG. 2 is a left side plan view of the embodiment shown in
FIG. 1;

FIG. 3 is a right side plan view of the embodiment shown in
FIG. 1;

FIG. 4 is a front plan view of the embodiment shown in FIG.
1;

FIG. 5 is a rear plan view of the embodiment shown in FIG.
1;

FIG. 6 is a top plan view of the embodiment shown in FIG.
1; and,

FIG. 7 is a bottom plan view of the embodiment shown in
FIG. 1.

The irregular broken lines indicating the outline of food
packages, are for the purpose of illustrating environmental
matter and form no part of the claimed design. All broken
lines occurring separate of the food package outlines so
indicated, represent stitching.

The pattern of black dots on the left-hand side of the size
adjustment strap represents hook and loop fasteners.

The crosshatched pattern, although shown intermittently,
represents material, and is understood to be distributed
uniformly over the surface of the portion of the claimed
design on which it occurs (i.e., a gore, the visor, etc.).
