(57) **CLAIM**

The ornamental design for modular drawers, as shown and described.

**DESCRIPTION**

FIG. 1 is a left front perspective view of the design of the modular drawers; and,

FIG. 2 is a front elevational view thereof. The ornamental design is not visible in a rear view, top plan view, right or left side views or bottom view.

The characteristic feature of the ornamental design resides in the use of bands of a pattern on the modular drawers.

The broken line showing of hardware, of feet, and of surfaces of the cabinet enclosing the doors at the top, bottom and side edges of the doors, and the cabinet surfaces extending back from the face of the doors forms no part of the claimed design.
