(57)CLAIM

The ornamental design for a surface configuration of a vehicle, toy, and/or other replicas, as shown and described.

DESCRIPTION

This application is related to the following co-pending applications, of the inventor, filed on even date herewith:

Application Ser. No. 29/225,802, entitled "Surface Configuration of a Vehicle, Toy, and/or Other Replicas"; Application Ser. No. 29/225,823, entitled "Surface Configuration of a Vehicle, Toy, and/or Other Replicas"; and Application Ser. No. 29/225,812, entitled "Surface Configuration of a Headlight for a Vehicle".

FIG. 1 is a left, front perspective view of a first embodiment of a surface configuration of a vehicle, toy, and/or other replicas according to my novel design, the right, front perspective view being mirror symmetrical;

FIG. 2 is a left, rear perspective view of the first embodiment of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design, the right, rear perspective view being mirror symmetrical;

FIG. 3 is a left side view of the first embodiment of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design, the right side view being mirror symmetrical

FIG. 4 is a front view of the first embodiment of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design;

FIG. 5 is a left, front perspective view of a second embodiment of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design, the right, front perspective view being mirror symmetrical;

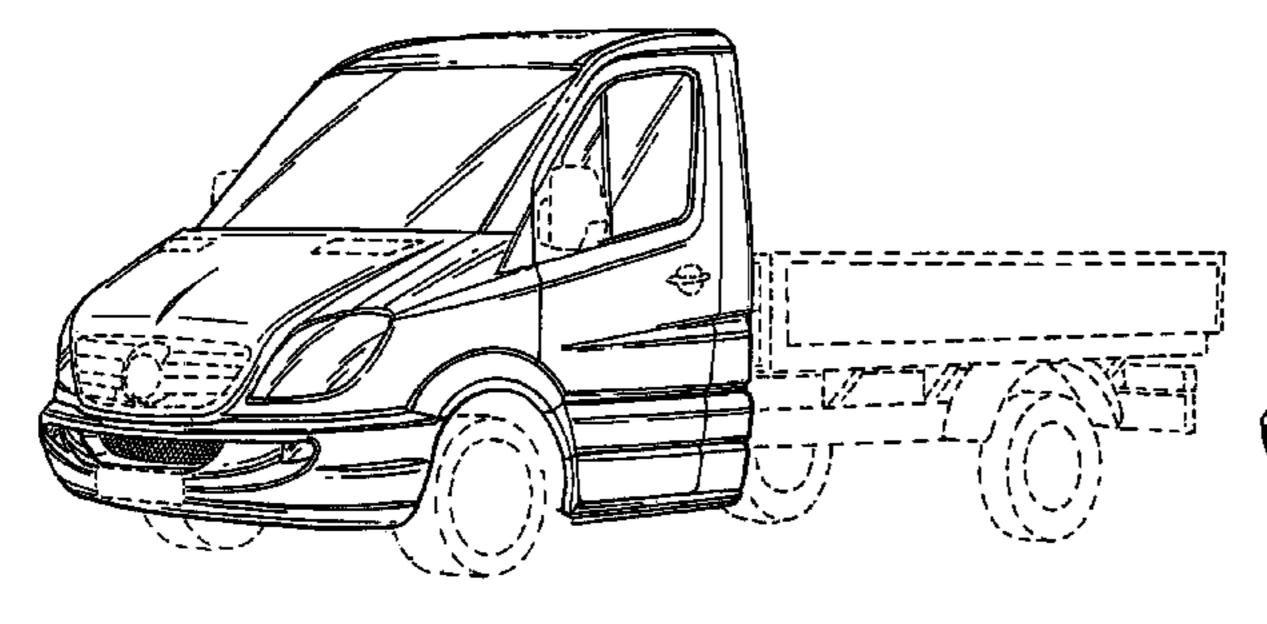

FIG. 6 is a left, rear perspective view of the second embodiment of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design, the right, rear perspective view being mirror symmetrical;

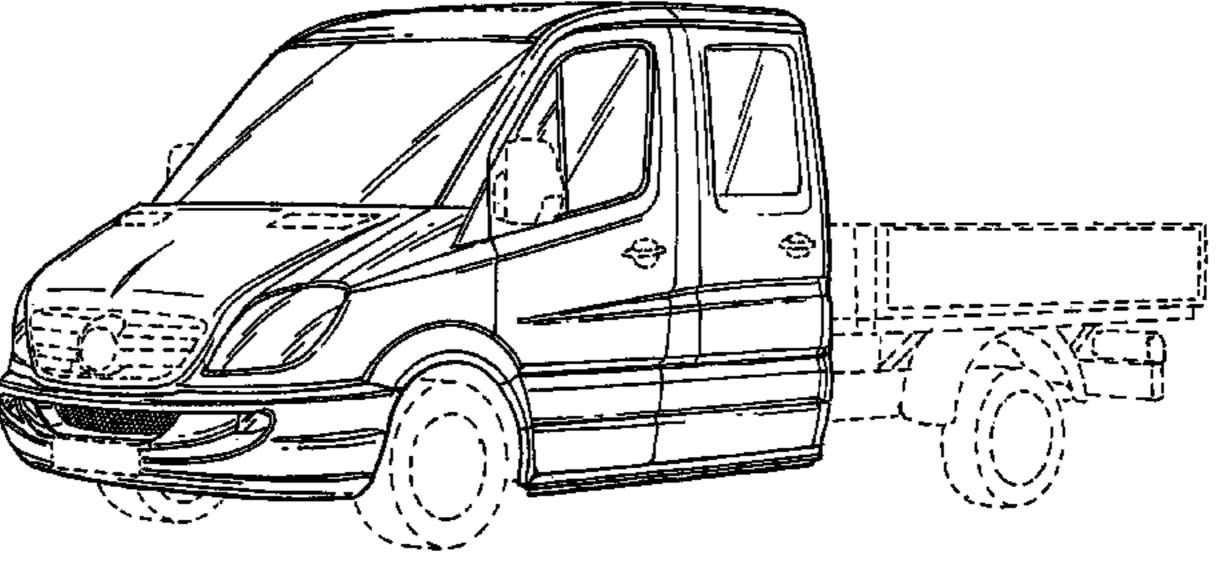

FIG. 7 is a left side view of the second embodiment of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design, the right side view being mirror symmetrical; and,

FIG. 8 is a front view of the second embodiment of the surface configuration of a vehicle, toy, and/or other replicas according to my novel design.

The broken lines are for illustrative purposes only and form no part of the claimed design.
