(57) **CLAIM**

The ornamental design for an edge-emitting light emitting diode component, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of an edge-emitting light emitting diode component having a window structure formed on the housing for emitting light generated by an internal light emitting diode according to the new design; and,

FIG. 2 is a front view thereof.

The broken lines showing the main body and the surface shading shown on surfaces not fully defined by solid lines are only for illustrative purposes and form no part of the claimed design.
