FIG. 1 is a front view of an animated image for a portion of a display screen showing our new design, with the animated image having a first appearance state;

FIG. 2 is a front view thereof, with the animated image having a second appearance state;

FIG. 3 is a front view thereof, with the animated image having a third appearance state;

FIG. 4 is a front view thereof, with the animated image having a fourth appearance state;

FIG. 5 is a front view thereof, with the animated image having a fifth appearance state;

FIG. 6 is a front view thereof, with the animated image having a sixth appearance state; and,

FIG. 7 is a front view thereof, with the animated image having a seventh appearance state.

The appearance of the animated image sequentially transitions between the images shown in FIGS. 1-7. The process or period in which one image transitions to another forms no part of the claimed design.

The broken line showing of the four regions in the image and the portion of the display screen is for illustrative purposes only and forms no part of the claimed design.
