(57) **CLAIM**

The ornamental design for an instrument case, as shown and described.

DESCRIPTION

FIG. 1 is a top, right side perspective view of an instrument case showing our new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a right side elevational view thereof, with left side elevational view being an identical mirror image thereof;

FIG. 4 is a front elevational view thereof;

FIG. 5 is a rear elevational view thereof;

FIG. 6 is a bottom plan view thereof; and

FIG. 7 is a top, right side perspective view thereof, with the instrument case in an open position and the inner housing separated.

FIG. 8 is a top and right side perspective view of the inner housing of the instrument case;

FIG. 9 is a top right side perspective view thereof, with two of the instrument cases in stacked configuration;

FIG. 10 is a left side perspective view of the two instrument cases in a stacked configuration, with the right side elevational view being an identical mirror image thereof;

FIG. 11 is a front elevational view of the two instrument cases in a stacked configuration; and,

FIG. 12 is a rear elevational view of the two instrument cases in a stacked configuration.
