(57) **CLAIM**

The ornamental design for a vehicle rear taillight lens, as shown and described.

DESCRIPTION

FIG. **1** is an elevational view of a right vehicle rear taillight lens (as viewed from the rear of the vehicle), the right vehicle rear taillight lens;

FIG. **2** is a right side elevational view of the right vehicle rear taillight lens;

FIG. **3** is a left side elevational view of the right vehicle rear taillight lens illustrating the Class B surface, the curvature on the right side of the figure is shown and claimed;

FIG. **4** is a top down plan view of the right vehicle rear taillight lens;

FIG. **5** is bottom up plan view of the right vehicle rear taillight lens; and,

FIG. **6** is an elevational view of the right vehicle rear taillight lens (as viewed from the front of the vehicle), illustrating the Class B surface. This view is not claimed and is used for secondary filing.

The vehicle rear taillight lens is styled independently of adjacent vehicle panels. To the extent that any feature lines are illustrated, they are intended to illustrate the crest and valley of the feature and are not necessarily sharp bends in the part. Shading is used to illustrate the curvature of the part and not color. Areas shown in or sounded by broken lines are not claimed. The surface normally visible when the vehicle rear taillight lens is attached to a vehicle is called the "Class A" surface is claimed. The surface not normally visible when the vehicle rear taillight lens is attached to a vehicle is called the "Class B" surface and is not claimed. Any functional features of the vehicle rear taillight lens are not claimed.
