(57) **CLAIM**

The ornamental design for a service pane with content well  
for an image processing machine, as shown and described.

**DESCRIPTION**

The FIGURE is a front view of a service pane with a content  
well for an image processing machine in accordance with  
the present invention.

The twelve ovals, text, and rectangular features with text  
shown in broken lines in the figure are for illustrative  
purposes only and do not form part of the claimed design.
