(57) **CLAIM**

The ornamental design for a computer network monitoring
data consolidator reports interface for a computer screen, as
shown and described.

DESCRIPTION

The claimed interface provides a view of the conditions that
are specific to all individual devices connected to the com-
puter network, such as servers, applications, routers, for
example. The claimed interface also provides status, avail-
ability, capacity and capability to perform designated func-
tions, along with indicating the current level of system and
device performance, in addition to indicating the actions that
are being undertaken.

The single FIGURE is a front view of a computer network
monitoring data consolidator reports interface for a com-
puter screen.
