(54) **DISPLAY FOR AN ELECTRONIC WEIGHING SCALE**

(57) **CLAIM**

(76) Inventor: **Joshua D. Kesselman**, 1550 Rand Avenue, Vancouver, British Columbia (CA) V6P 3G2

The ornamental design for a display for an electronic weighing scale, as shown and described.

(**) Term: **14 Years**

DESCRIPTION

(21) Appl. No.: **29/249,875**

FIG. 1 is a front elevational view of a display for an electronic weighing scale showing our new design. The display characters shown in FIG. 1 are as seen with all available segments in an operable condition, with my display having horizontal lining for one color, such as black, and with the overload capacity gauge at maximum with all bars shown on either side of the perimeter of the display, such as when the scale has been overloaded;

(52) **U.S. Cl.** **D10/94; D10/103; D10/126**

(58) **Field of Classification Search** D10/94, D10/103, 122-123, 125-126; 73/308, 313, 73/319, 715, 431, 499, 866.1, 866.3; 116/267, 116/330; 313/500, 517; 324/115; 359/89; 177/177-178, DIG. 32, DIG. 35

FIG. 2 is a front elevational view of a display for an electronic weighing scale showing one mode of operation displaying a weight of 0.000 with the overload capacity gauge empty with no bars shown, such as while not weighing an object on the electronic weighing scale; and,

See application file for complete search history.

FIG. 3 is a front elevational view of a display for an electronic weighing scale showing another mode of operation with a sample weight of 0.0701 g with the overload capacity gauge approximately 1/2 with six bars shown on either side of the perimeter of the display.
