(57) **CLAIM**

The ornamental design for a dual compartment container, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a dual compartment container embodying the new design.

FIG. 2 is a front elevational view of the dual compartment container of FIG. 1.

FIG. 3 is a back elevational view of the dual compartment container of FIG. 1.

FIG. 4 is a side elevational view of the dual compartment container of FIG. 1.

FIG. 5 is an elevational view of the opposite side of the dual compartment container of FIG. 4.

FIG. 6 is a top plan view of the dual compartment container of FIG. 1.

FIG. 7 is a bottom plan view of the dual compartment container of FIG. 1.

FIG. 8 is a top plan view of the container portion of the design with the lid removed to show the underlying parts; together with a perspective view of the inside of the lid thereof.

FIG. 9 is a front elevational view of the container with the lid removed to show the threading; and,

FIG. 10 is a side elevational view of FIG. 9, the opposite side view being a mirror image thereof.

The broken outline on the bottom surface defines the bounds of the claim thereon; the broken lines within the outline are for illustrative purposes only; none of the broken lines form part of the claimed design.
