(57) **CLAIM**

I claim the ornamental design for the an automobile sunshade with stars and waving stripes, as shown and described.

DESCRIPTION

FIG. 1 is a front view of an automobile sunshade with stars and waving stripes in a fully extended mode.

FIG. 2 is a rear view of the automobile sunshade with stars and waving stripes in the fully extended mode shown in FIG. 1.

FIG. 3 is a top view of the automobile sunshade with stars and waving stripes in the fully extended mode shown in FIG. 1.

FIG. 4 is a bottom view of the automobile sunshade with stars and waving stripes in the fully extended mode shown in FIG. 1.

FIG. 5 is a left side view of the automobile sunshade with stars and waving stripes in the fully extended mode shown in FIG. 1 (the right side view being a mirror image of the left side view).

FIG. 6 is a front view of an automobile sunshade with stars and waving stripes in a partially extended mode with one panel overlaid upon the other panel.

FIG. 7 is a rear view of the automobile sunshade with stars and waving stripes in the partially extended mode shown in FIG. 6.

FIGS. 8 and 9 are top and bottom views of the automobile sunshade with stars and waving stripes in the partially extended mode shown in FIG. 6.

FIGS. 10 and 11 are left side and right side views rotated 90 degrees of the automobile sunshade with stars and waving stripes in the partially extended mode shown in FIG. 6.

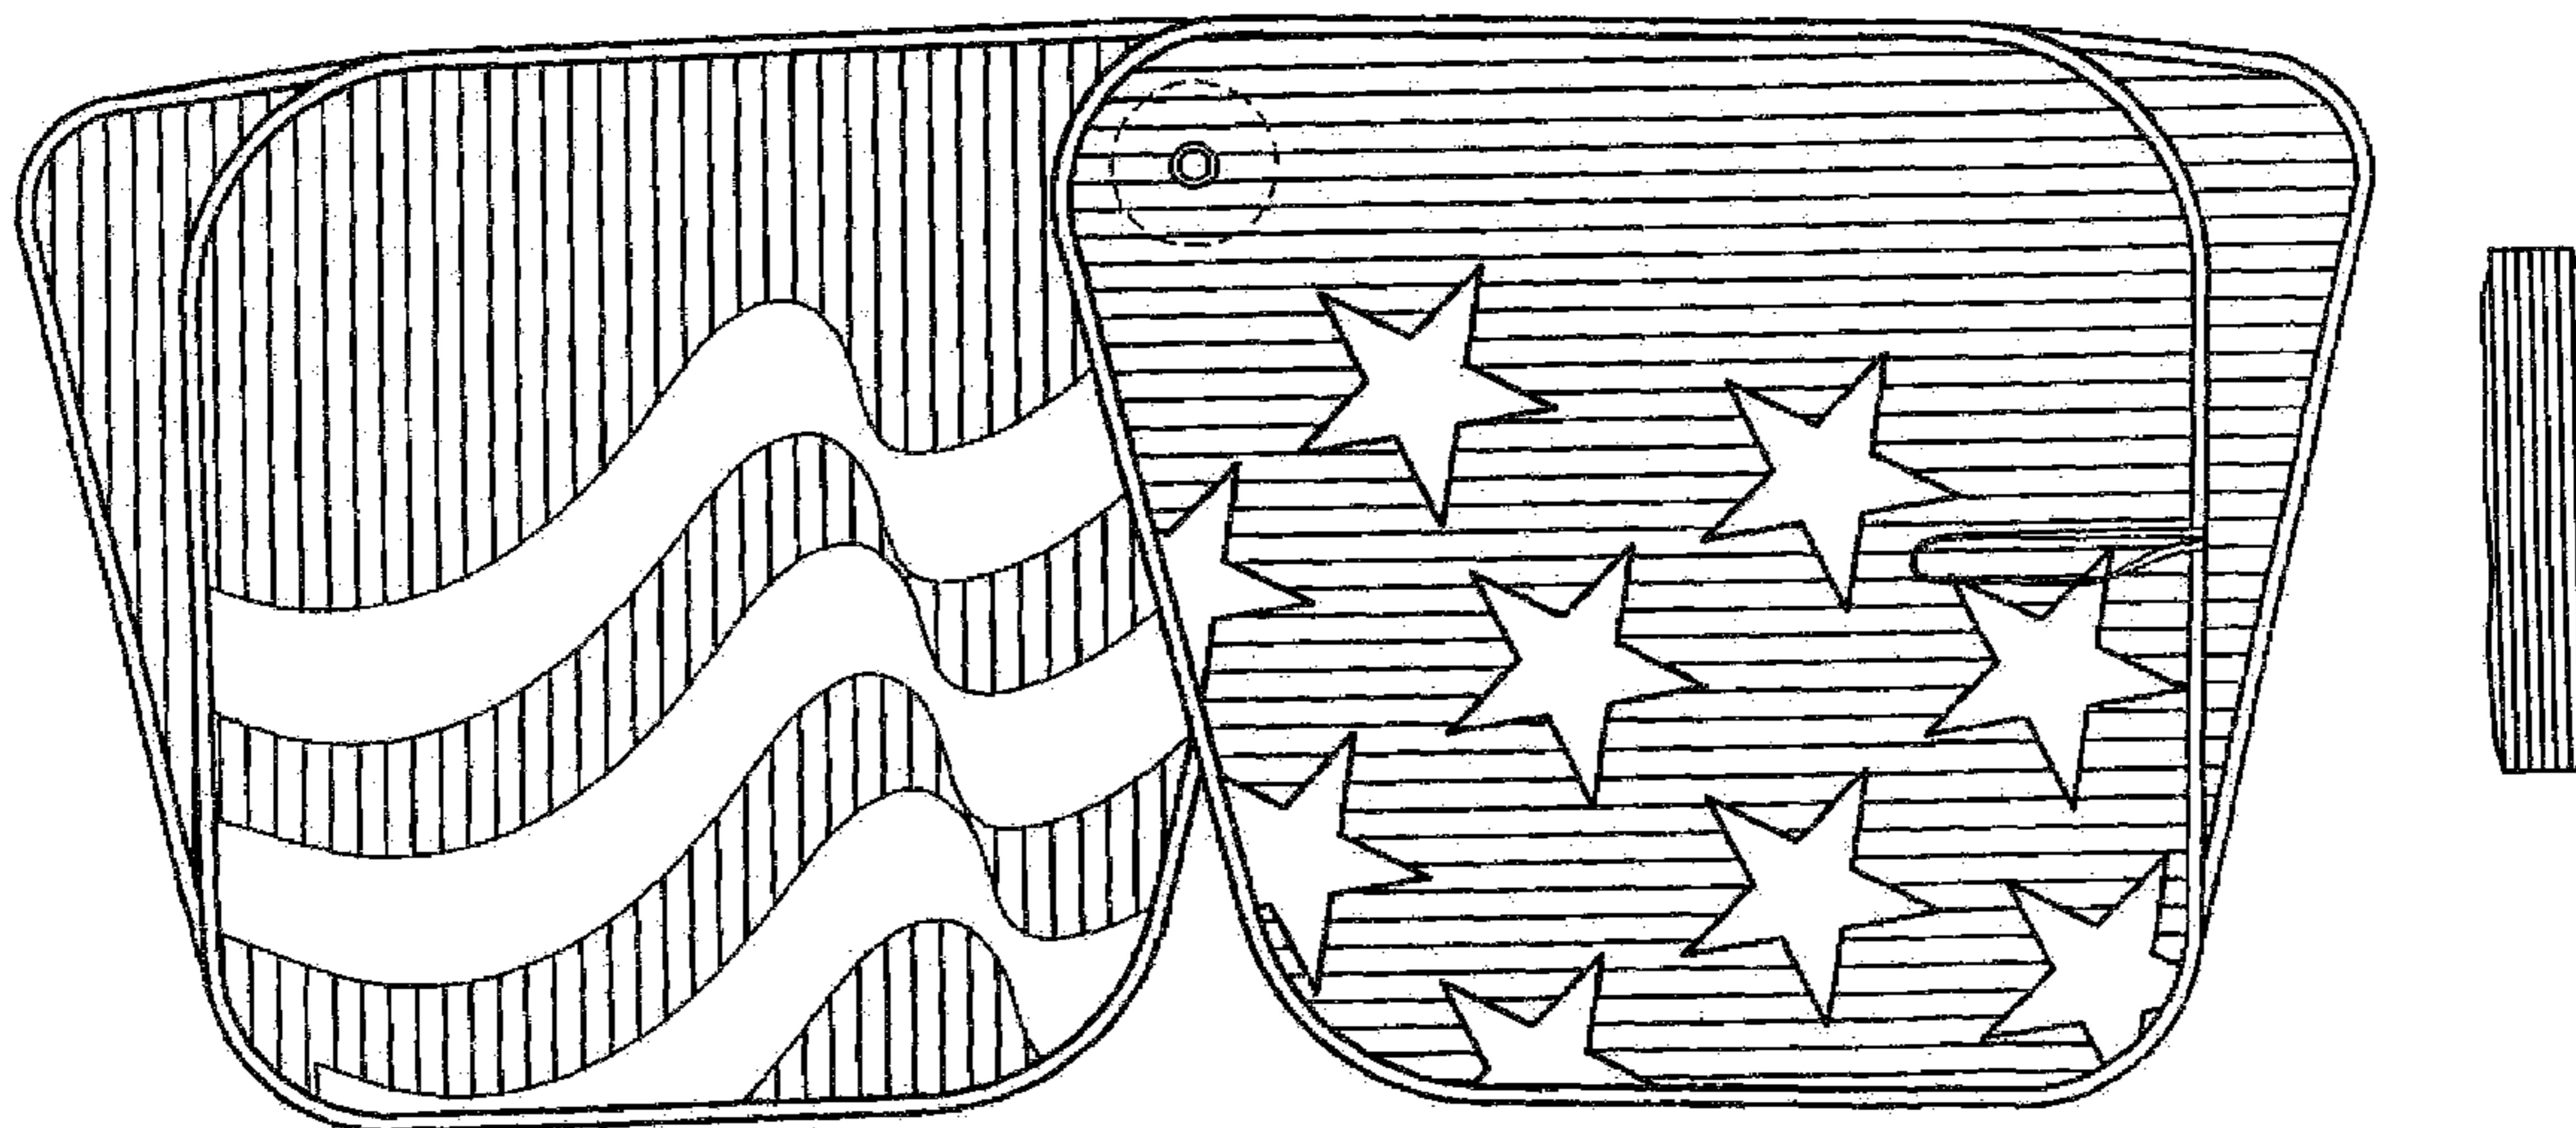

FIG. 12 is a front view of an automobile sunshade with stars and waving stripes in a fully collapsed, compact mode.

FIG. 13 is a rear view of the automobile sunshade with stars and waving stripes in the fully collapsed, compact mode shown in FIG. 12; and,

FIG. 14 is a left side view of the automobile sunshade with stars and waving stripes in the fully collapsed, compact mode shown in FIG. 12 (the right side and top and bottom views begin identical to the left side view).

The drawings are lined for color.
