(57) **CLAIM**

The ornamental design for a tire tread, as shown and
described.

DESCRIPTION

FIG. 1 is a perspective view of a tire tread showing my new
design, it being understood that the directional & symmetri-
cal tread pattern repeats circumferentially throughout the
outer circumference and shoulder of a tire, the opposite side
perspective view being an inverted image thereto;

FIG. 2 is an enlarged fragmentary front elevation view of the
tire tread thereof of FIG. 1; and,

FIG. 3 is a side elevation view of the tire tread of FIG. 1, the
opposite side elevation view being a mirror image thereto.

The broken line disclosure of the tire sidewall and inner bead
is for illustrative purposes only and forms no part of the
claimed design.
