The broken lines in the figures show structure or boundaries that are not part of the claimed design, but rather show the environment in which the design is associated, or show portions of the article in which the design is embodied or applied to that are not considered part of the claimed design. The shading and tones, and any variations thereof, shown in the informal drawings do not imply any specific colors or color contrast scheme in the article to be patented. In addition, surface coloration and tones, and the variations thereof, shown in the informal drawings form no part of the claimed design.
