(57) **CLAIM**

The ornamental design for an “aircraft control panel,” as shown and described.

**DESCRIPTION**

This application may be deemed related to commonly owned copending U.S. Design patent application Ser. Nos. 29/271,590 entitled “Aircraft Control Yoke” and 29/271,589 entitled “Aircraft Cockpit Throttle Console” filed even date herewith, which applications are expressly incorporated hereinto by reference.

FIG. 1 is a front perspective view of an aircraft control panel which embodies my new and original design therefore; and, FIG. 2 is a front elevation view of thereof, the rear elevation view, left and right side elevation views, and top and bottom plan views being unornamented.

The broken lines in FIGS. 1 and 2 represent adjacent aircraft panel support structures and other aircraft panel components in the environment of the claimed design, but which do not form part of the claimed design.
