FIG. 1 is a top perspective view of a tabletop drink service display of the present invention;

FIG. 2 is a front side view thereof, the left, right, and rear sides having substantially the same appearance;

FIG. 3; is a top view thereof

FIG. 4 is a bottom view thereof;

FIG. 5 is a top perspective view thereof, with the tabletop drink service display shown in an opened position; and,

FIG. 6 is a side view thereof with the tabletop drink service display in an opened position, the left, right, and rear sides having substantially the same appearance.

The ornamental design which is claimed is shown in solid lines in the drawings. Any broken lines in the drawings are for illustrative purposes only and form no part of the claimed design. The oblique surface shading indicates that the generally spherical upper portion may be transparent, translucent (admitting and diffusing light so that objects beyond cannot be clearly distinguished).
