(57) **CLAIM**

The ornamental design for a child booster seat, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a child booster seat detailing my new design;

FIG. 2 is a left-side view thereof;

FIG. 3 is a right-side view thereof;

FIG. 4 is a front view thereof;

FIG. 5 is rear view thereof;

FIG. 6 is a top view thereof;

FIG. 7 is a perspective view of a second embodiment of FIG. 1, the only difference being the addition of a height adjustment knob on the front of the seat, it being understood that all other surfaces are the same as those of the first embodiment; and,

FIG. 8 is a perspective view of a third embodiment of the FIG. 1, the only difference being the addition of a height adjustment knob and a quick release pull strap on the front of the seat, it being understood that all other surfaces are the same as those of the first embodiment.
