(57) **CLAIM**

The ornamental design for an embossed sheet with surface pattern, as shown and described.

DESCRIPTION

The sole FIGURE is a plan view of embossed sheet with surface pattern showing our new design.

In the drawing, the broken lines around the design indicate that a specific length and width of embossed sheet form no part of the claimed design, it being understood that the surface pattern repeats over the length and width of the embossed sheet. The broken lines around the design also define one repeat unit of the claimed design, which repeats in one or more directions. The broken lines form no part of the claimed design.

The appearance of the sides opposite those shown in the drawings is not claimed, nor are the edge views, as these latter would be straight single lines.

1 Claim, 1 Drawing Sheet
