CLAIM

The ornamental design for a portable telephone, as shown and described.

DESCRIPTION

FIG. 1 is a bottom, rear and right side perspective view of a portable telephone showing an embodiment of our new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a right side elevational view thereof;

FIG. 7 is a left side elevational view thereof;

FIG. 8 is a bottom, rear and right side perspective view showing a condition, in which the display-side housing is opened at a substantially right angle to the operation-side housing;

FIG. 9 is a bottom, rear and right side perspective view showing a condition, in which the display-side housing is opened at a substantially right angle to the operation-side housing;

FIG. 10 is a front elevational view showing a condition, in which the display-side housing is opened at a substantially right angle to the operation-side housing;

FIG. 11 is a rear elevational view showing a condition, in which the display-side housing is opened at a substantially right angle to the operation-side housing;

FIG. 12 is a top plan view showing a condition, in which the display-side housing is opened at a substantially right angle to the operation-side housing;

FIG. 13 is a bottom plan view showing a condition, in which the display-side housing is opened at a substantially right angle to the operation-side housing;

FIG. 14 is a front side elevational view showing a condition, in which the display-side housing is opened at a substantially right angle to the operation side housing;

FIG. 15 is a rear side elevational view showing a condition, in which the display-side housing is opened at a substantially right angle to the operation-side housing;

FIG. 16 is a bottom, and left side perspective view showing a condition, in which the display-side housing is opened;

FIG. 17 is a top, and left side perspective view showing a condition, in which the display-side housing is opened;

FIG. 18 is a interior elevational view showing a condition, in which the display-side housing is opened;

FIG. 19 is a exterior elevational view showing a condition, in which the display-side housing is opened;

FIG. 20 is a top plan view showing a condition, in which the display-side housing is opened;

FIG. 21 is a bottom plan view showing a condition, in which the display-side housing is opened;

FIG. 22 is a left side elevational view showing a condition, in which the display-side housing is opened; and,

FIG. 23 is a left side elevational view showing a condition, in which the display-side housing is opened.

The broken lines shown in the drawings are for illustrative purposes only and form no part of the claimed design.
