(57) **CLAIM**

The ornamental design for a support element for a light fixture, as shown and described.

DESCRIPTION

This application is related to commonly assigned, concurrently filed application Ser. No. 29/252,188, the disclosure of which is hereby incorporated by reference herein. All the material from copending application 29/252,188, which is essential to the claimed design, is included in this application. It is understood that any material in the copending application, which is not present in this application, forms no part of the claimed design.

FIG. 1 is an isometric view of the support element for a light fixture of the present design;

FIG. 2 is a top plan view thereof, the bottom plan view being identical thereto;

FIG. 3 is a front elevation view thereof, the rear elevation view being a mirror image thereof;

FIG. 4 is a right side elevation view thereof;

FIG. 5 is a left-side elevation view thereof; and,

FIG. 6 is an isometric view of a second embodiment of the support element for a light fixture along a serpentine path.

The broken line showing is for illustrative purposes only and forms no part of the claimed invention.
