DESCRIPTION

FIG. 1 is a perspective view of a cabinet for audio/video components showing my new design;

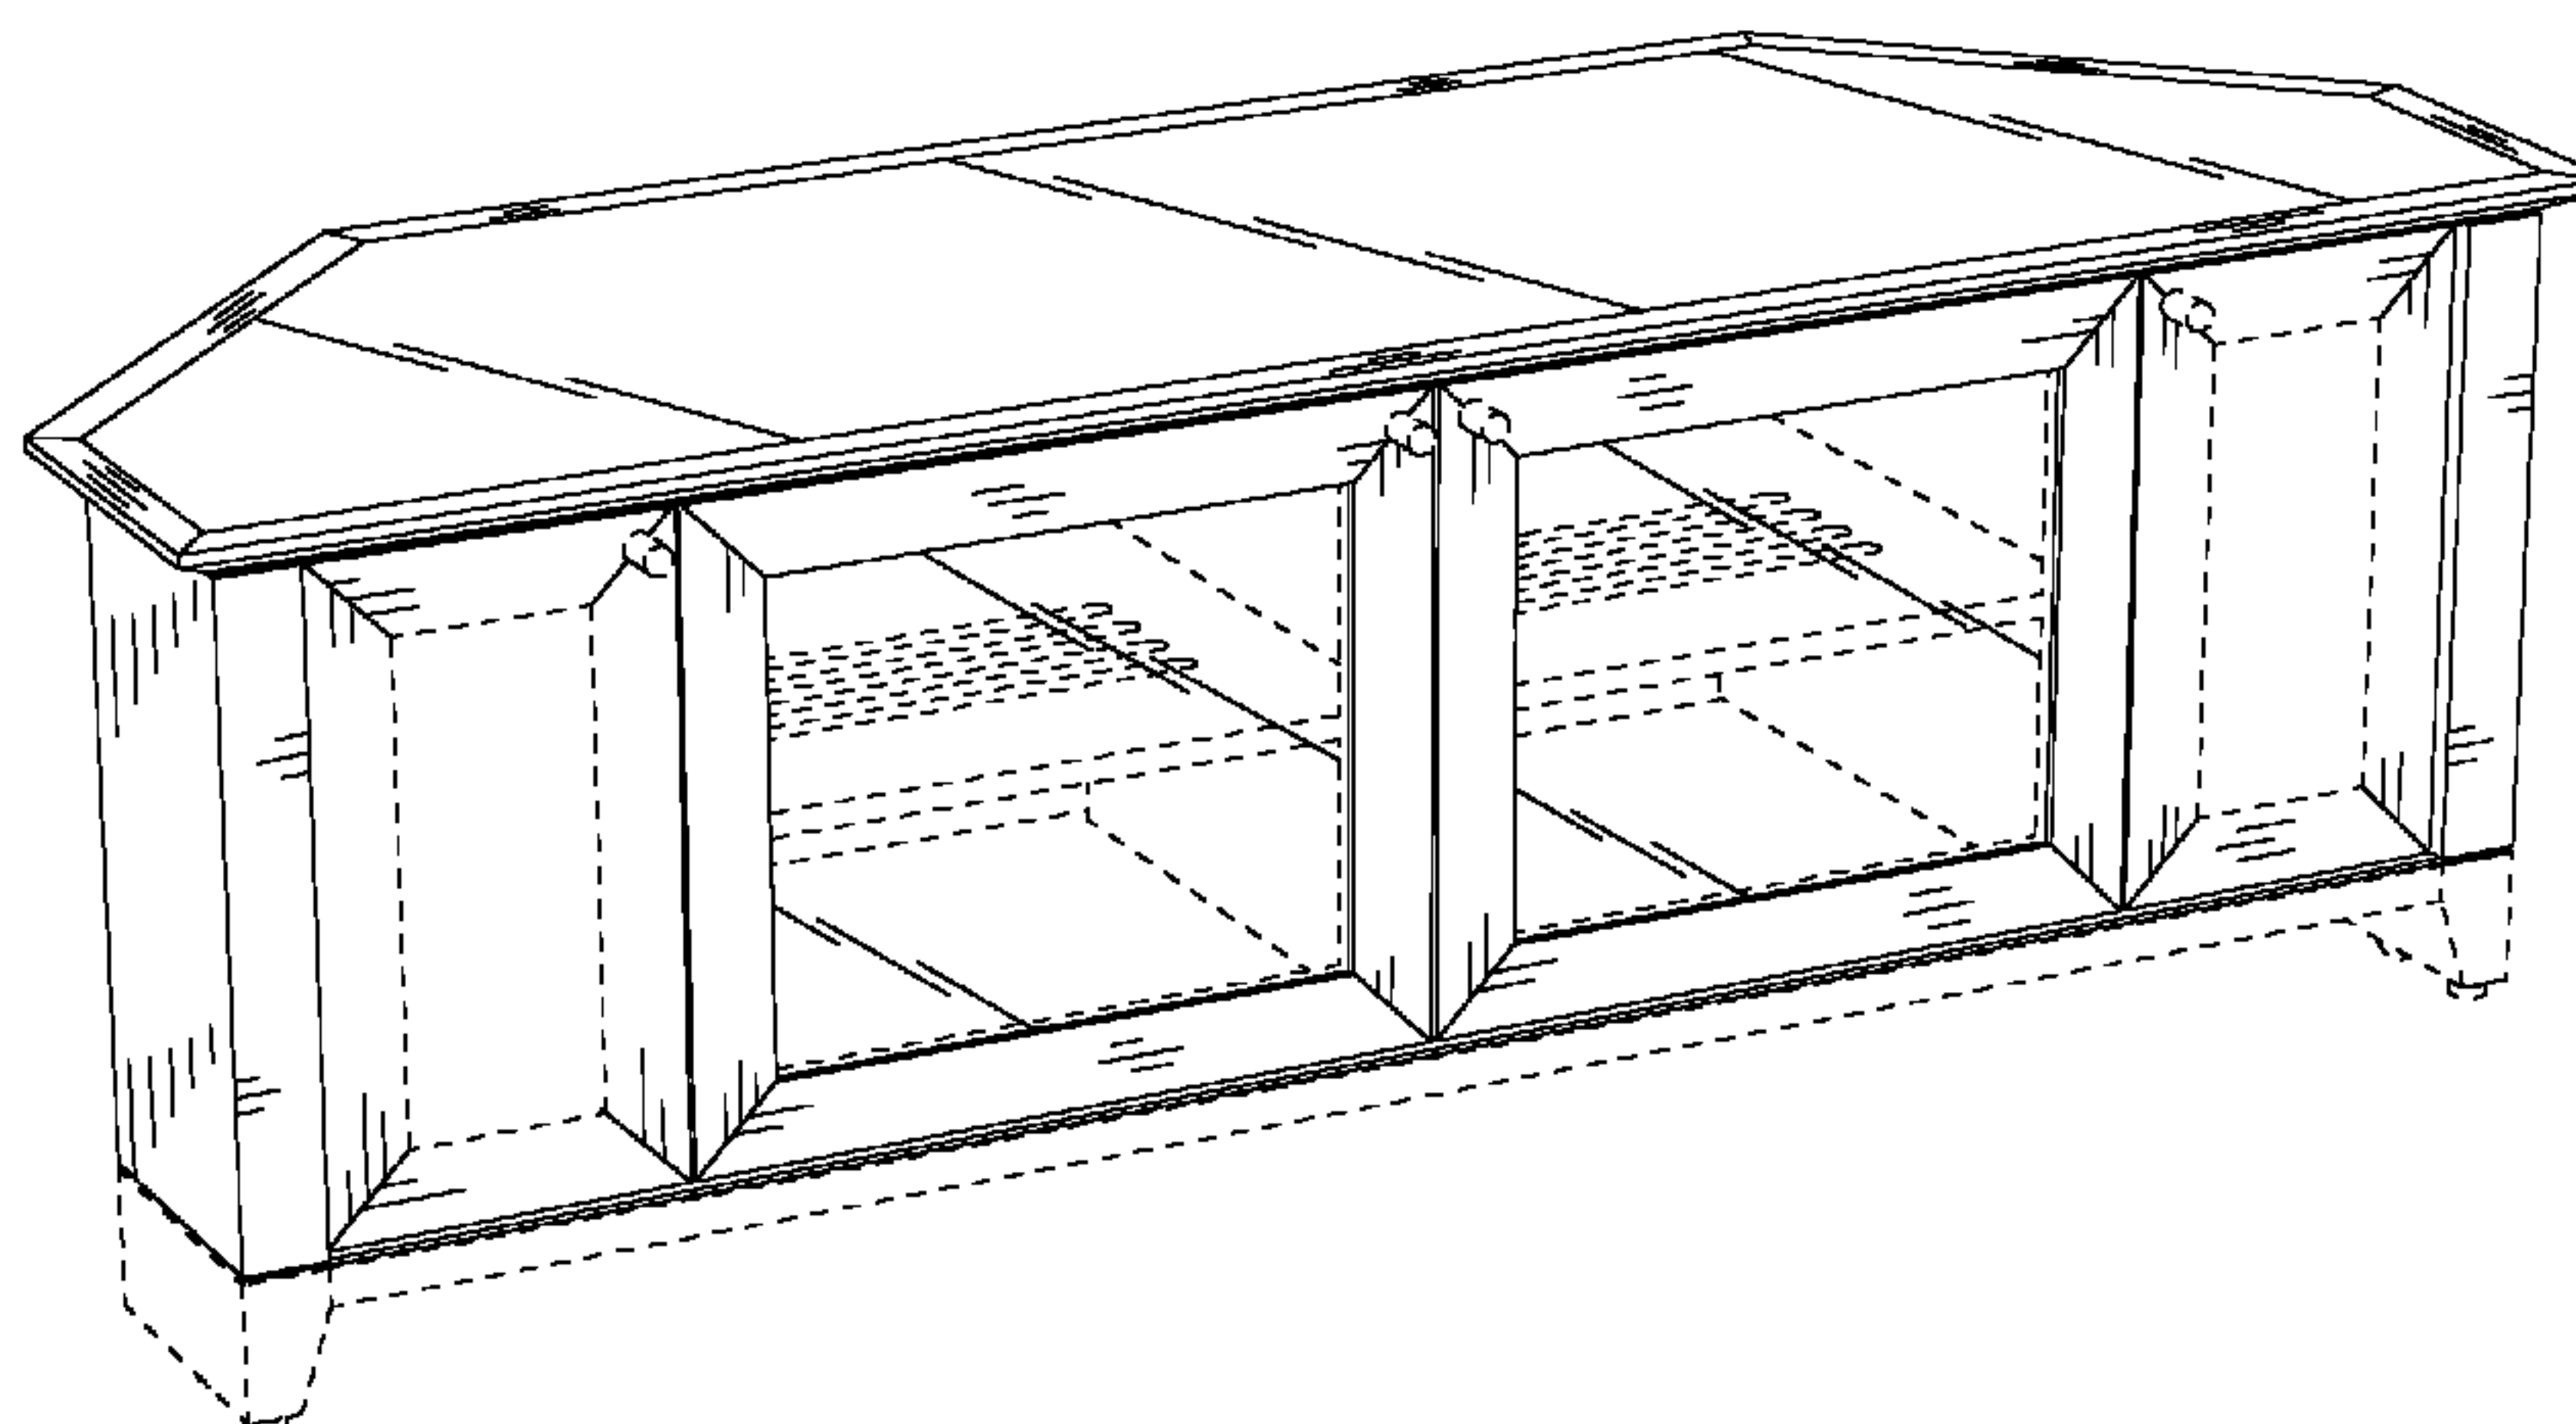

FIG. 2 is a front orthographic view thereof;

FIG. 3 is a top orthographic view thereof; and,

FIG. 4 is a left side orthographic view thereof, the right side view being a mirror image.

The broken lines shown in FIGS. 1–4 are included for the purpose of illustrating environmental elements only and form no part of the claimed design. The center portions of the doors are shaded for transparency in FIGS. 1 and 2, but may be either transparent or semi-opaque. In accordance with USPTO drawing convention, elements (both claimed and environmental) located behind elements shaded for transparency are visible in FIGS. 1 and 2. It should be understood that such elements may be partially obscured in an embodiment of the claimed design in which the elements that are shaded for transparency are semi-opaque.
