(57) **CLAIM**

The ornamental design for a bat handle and knob and a vibration damper wrapped on the handle, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a bat handle and knob and a vibration damper wrapped on the handle embodying the principles of the present invention; the bat handle is symmetrical about its longitudinal axis of elongation, and the view would be similar if the bat were rotated about that axis through any arc up to 360 degrees;

FIG. 2 is a fragment of FIG. 1 in a larger scale; and,

FIG. 3 is a view of the proximate end of the bat handle.
