(57) **CLAIM**

The ornamental design for a saddle insert pipe coupling, as shown and described.

DESCRIPTION

FIG. 1 is an exploded perspective view of one embodiment of the saddle insert pipe coupling of this invention showing the insert element and pipe component detached.

FIG. 2 is an exploded side view of the saddle insert pipe coupling of FIG. 1 looking at one side of the pipe coupling and showing the insert element and pipe component detached.

FIG. 3 is an end view of the insert element taken along line 3—3 of FIG. 2.

FIG. 4 is an end view of the insert element taken along line 4—4 of FIG. 2.

FIG. 5 is an end view of the pipe component taken along line 5—5 of FIG. 2.

FIG. 6 is an end view of the pipe component taken along line 6—6 of FIG. 2.

FIG. 7 is an exploded side view of the saddle insert pipe coupling of FIG. 1 looking at another side of the pipe coupling and showing the insert element and pipe component detached.

FIG. 8 is a perspective view looking in one direction at the saddle insert pipe coupling shown in FIG. 1 and assembled; and,

FIG. 9 is a perspective view looking in another direction at the assembled saddle insert pipe coupling shown in FIG. 8.
