#### **CLAIM** (57)

The ornamental design for a clasp for a wearable article, as shown and described.

### DESCRIPTION

FIG. 1 is an isometric view of an uncoupled clasp for a wearable article in accordance with a first embodiment of the present invention;

FIG. 2 is a top view of the clasp for a wearable article of FIG. 1;

FIG. 3 is a front view of the clasp for a wearable article of FIG. 1;

FIG. 4 is a rear view of the clasp for a wearable article of FIG. 1;

FIG. 5 is an isometric view of a coupled clasp for a wearable article in accordance with the first embodiment of the present invention;

FIG. 6 is an isometric view of an uncoupled clasp for a wearable article in accordance with a second embodiment of the present invention;

FIG. 7 is a top view of the clasp for a wearable article of FIG. **6**;

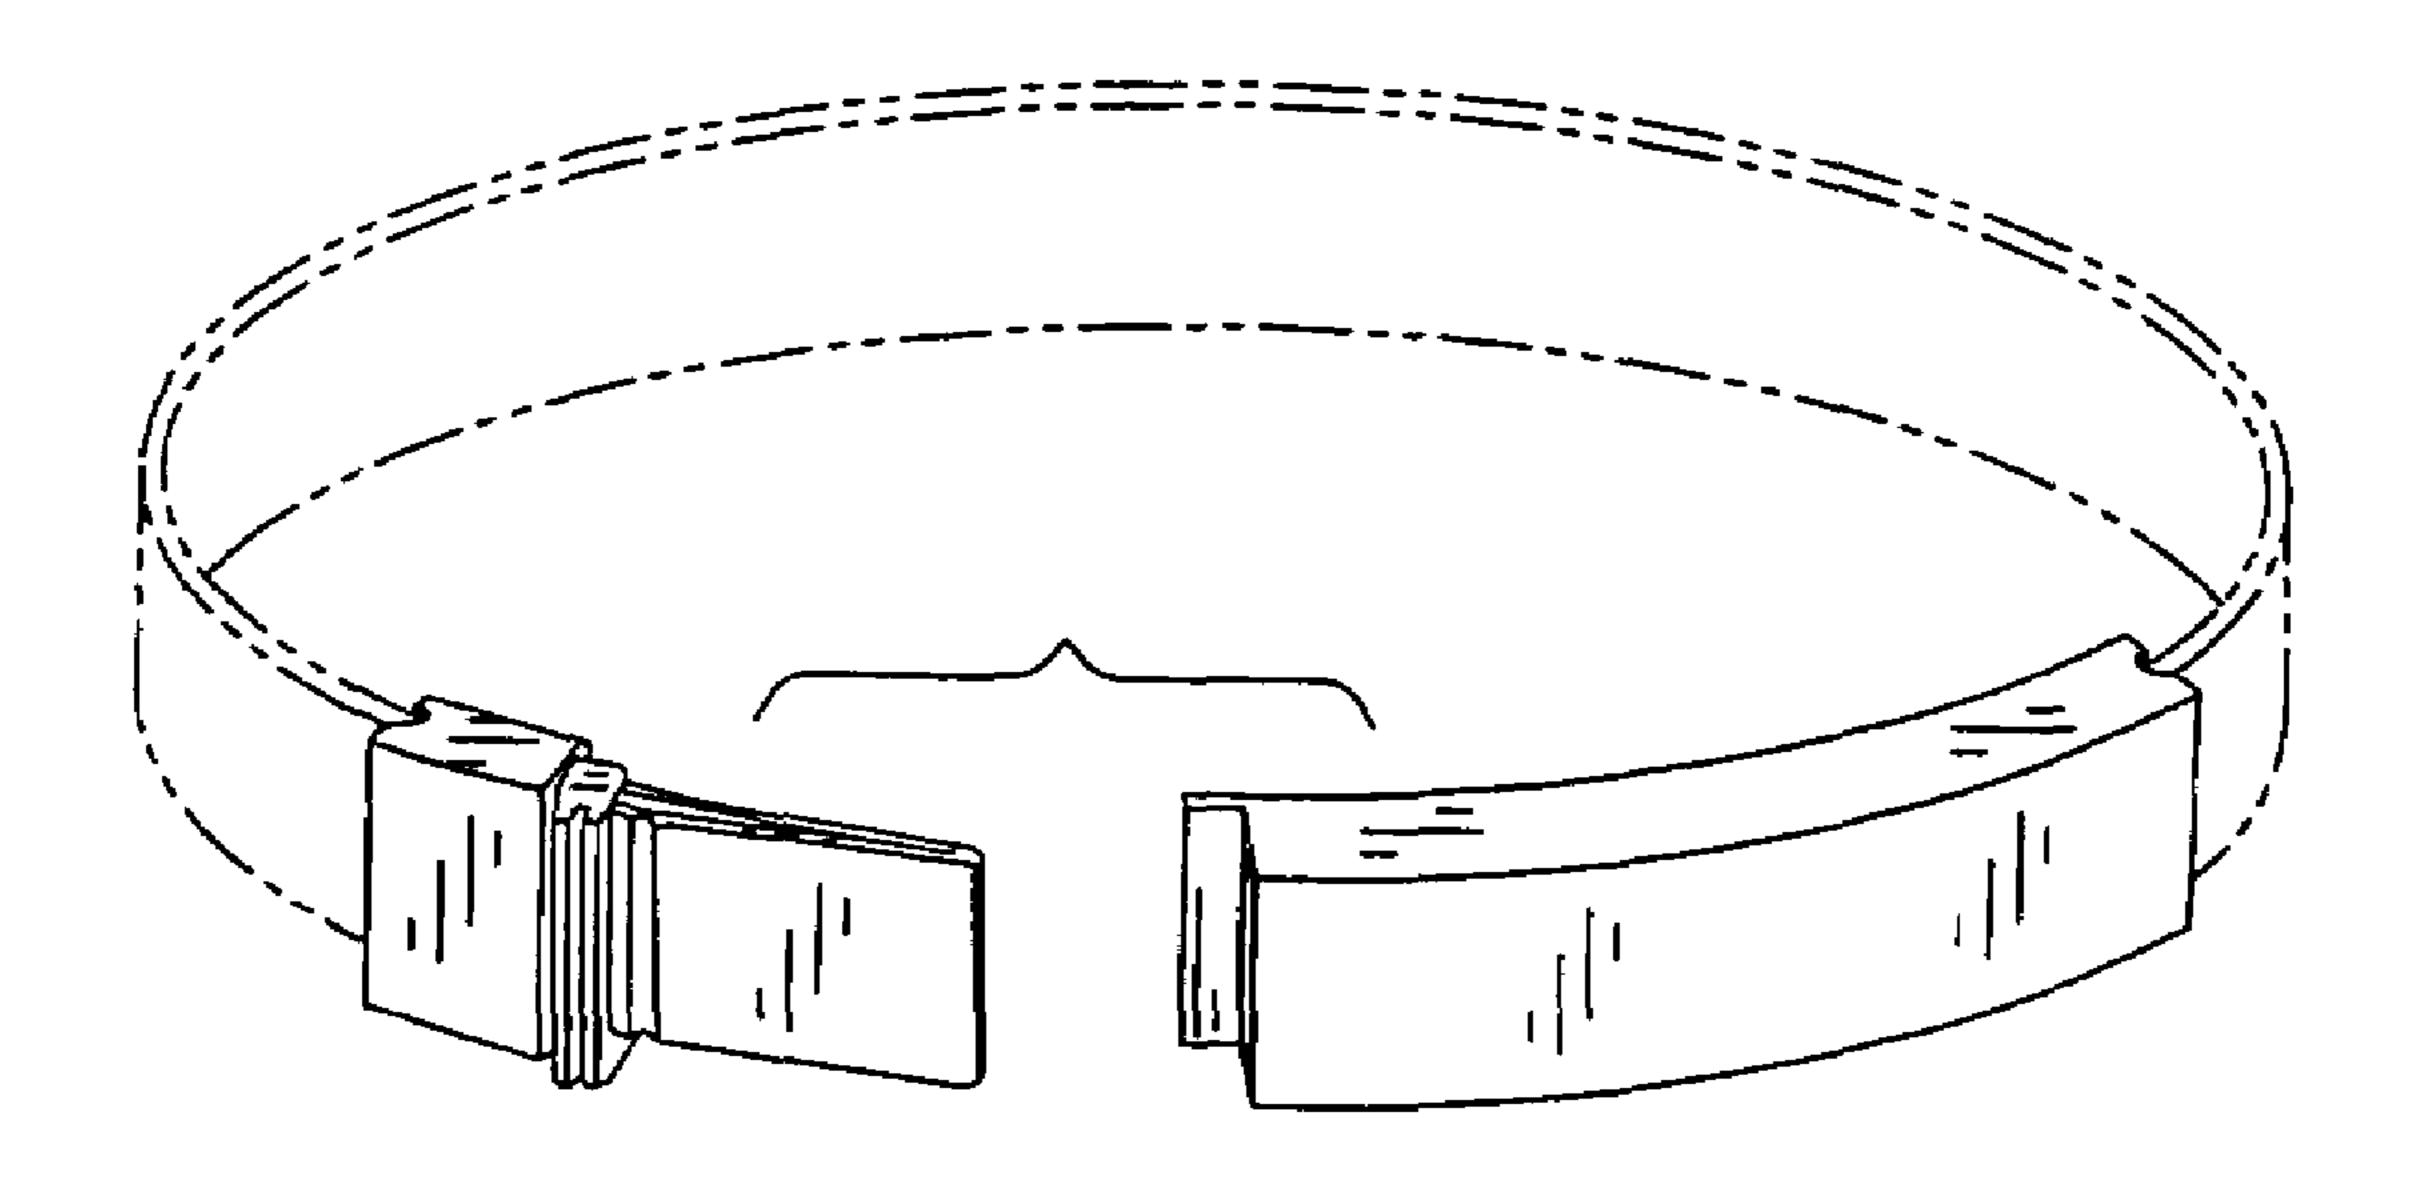

FIG. 8 is a front view of the clasp for a wearable article of FIG. **6**;

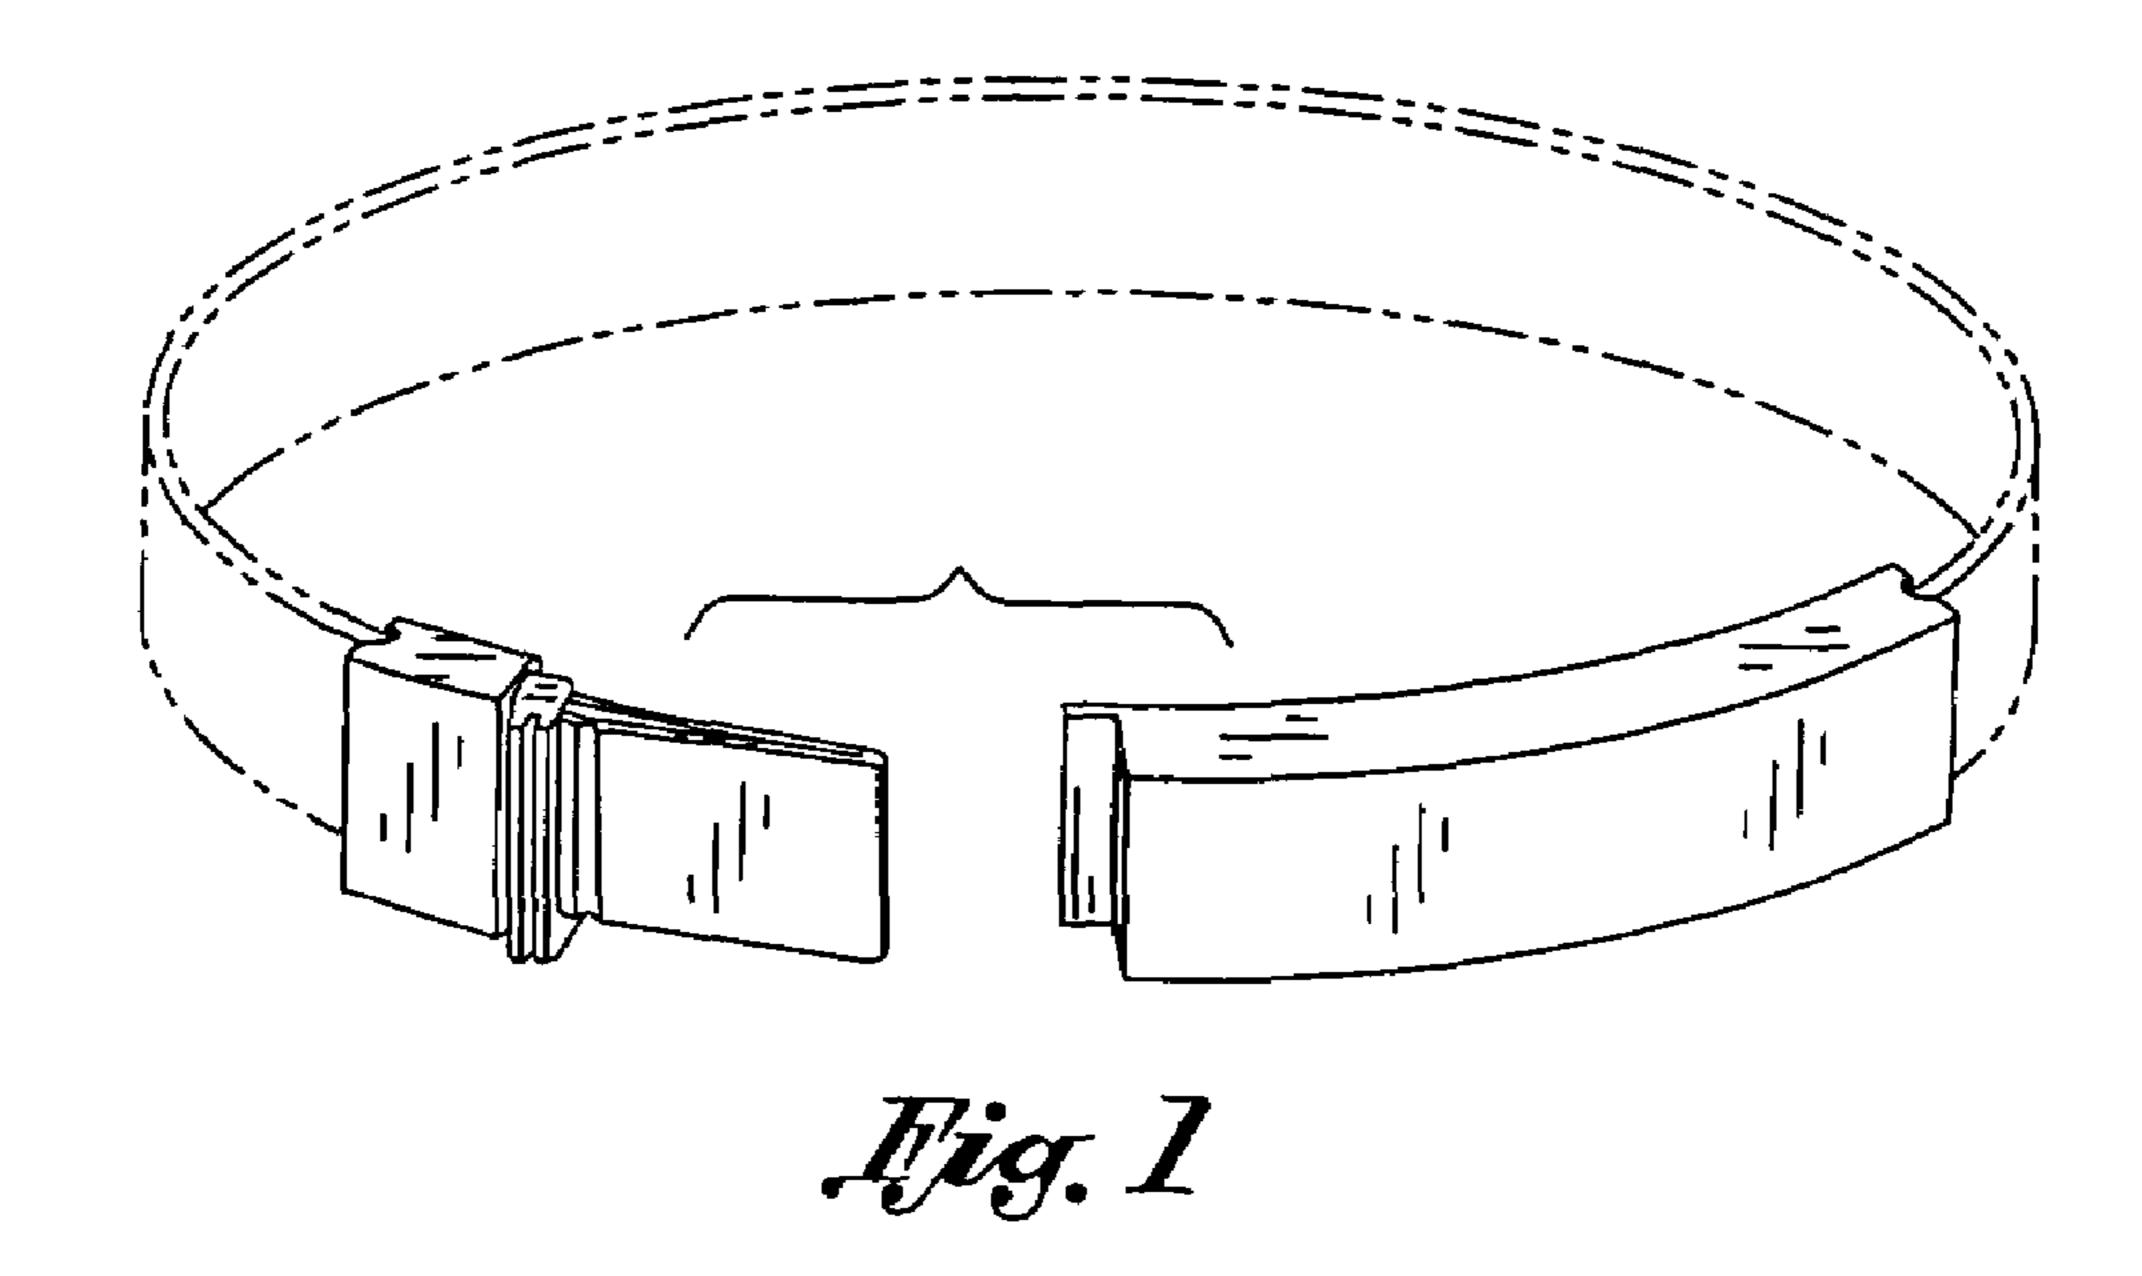

FIG. 9 is a rear view of the clasp for a wearable article of FIG. **6**; and,

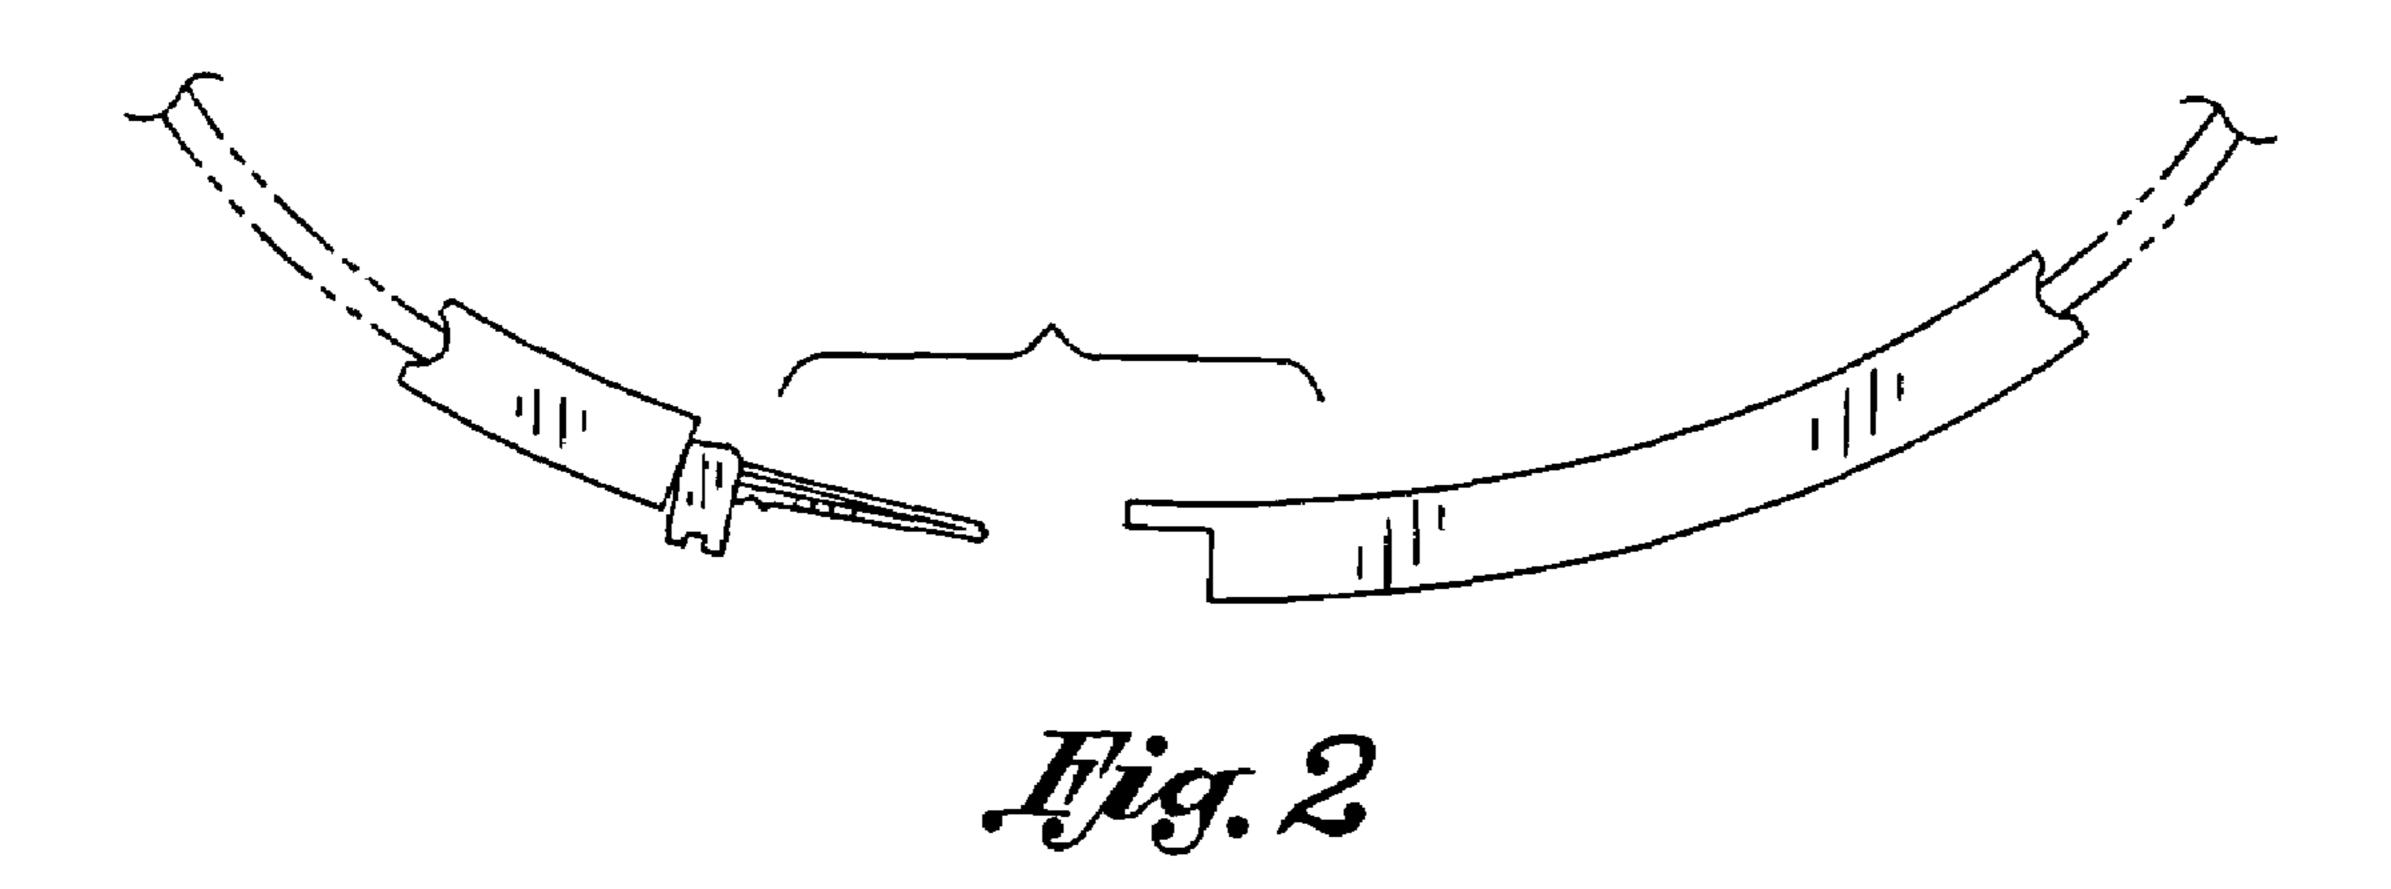

FIG. 10 is an isometric view of a coupled clasp for a wearable article in accordance with the second embodiment of the present invention.

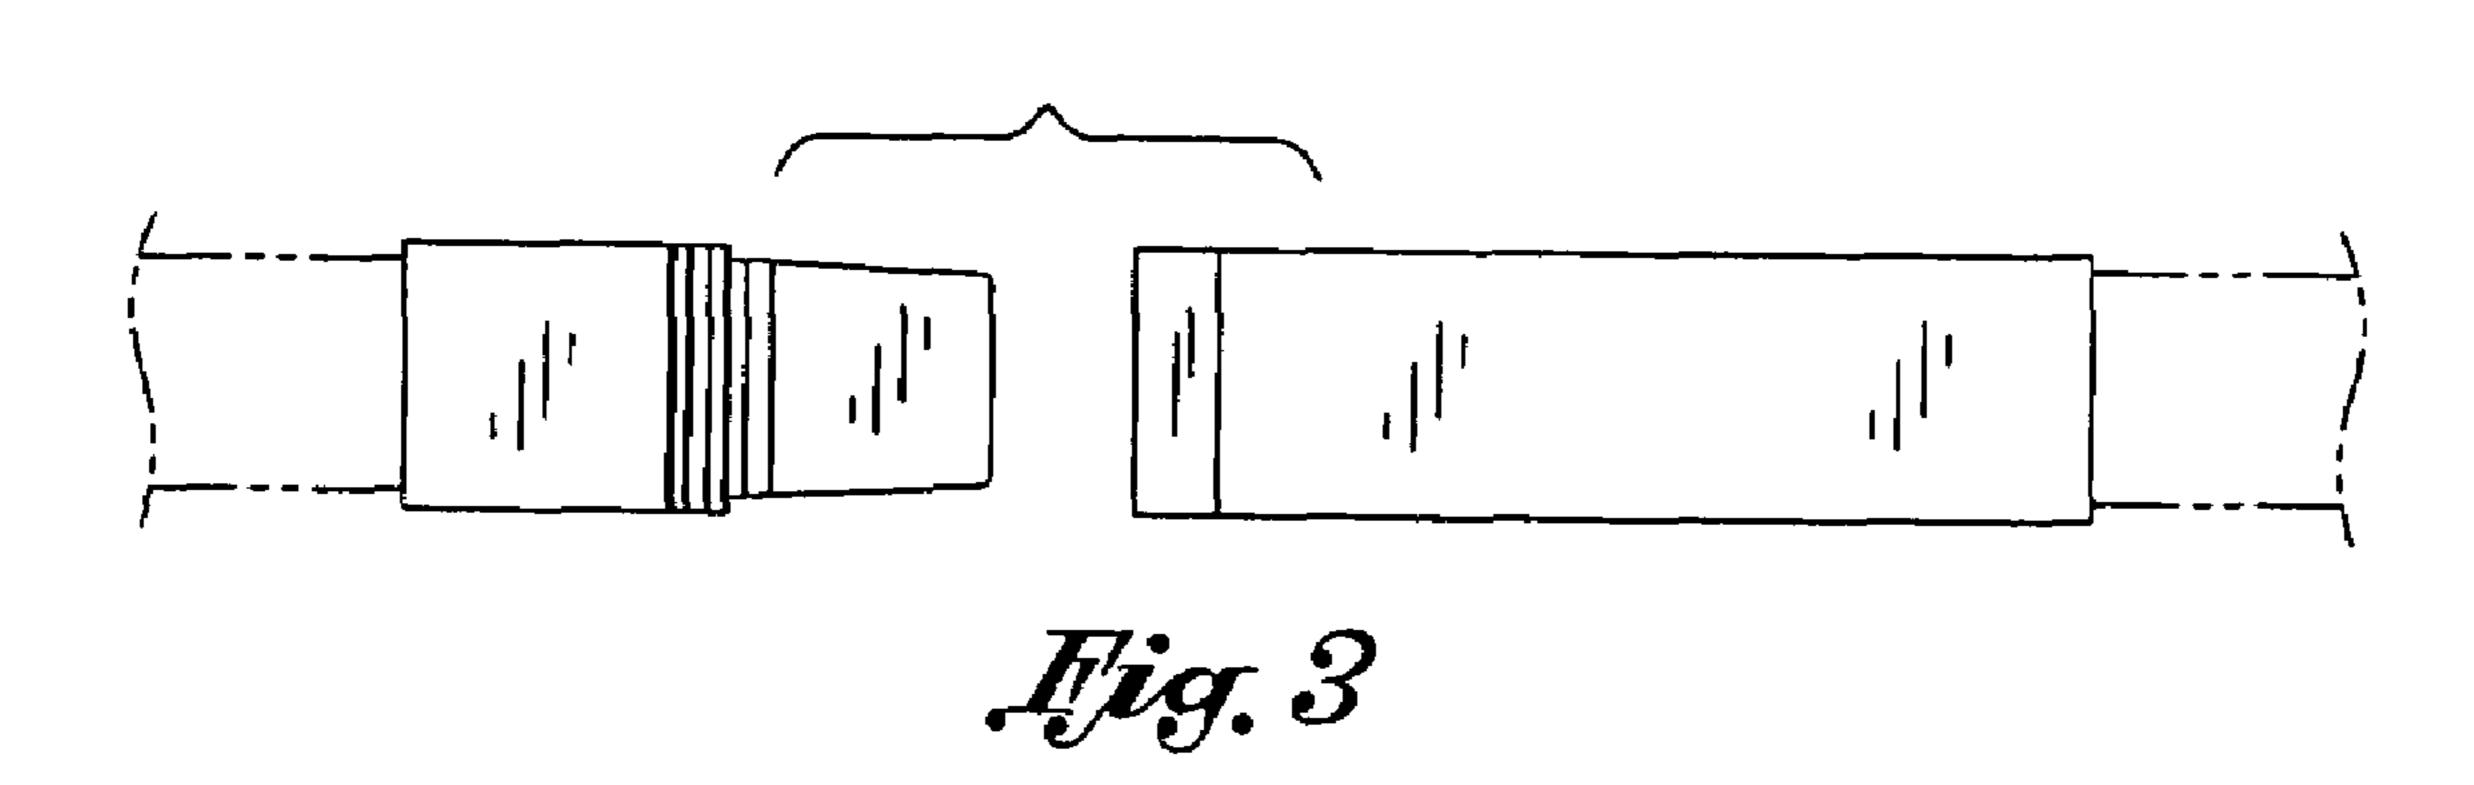

The portion of the figures shown in dotted lines represent a band. The band comprises one wearable article with which the clasp of the invention may be associated. The dotted line portion of the figures, however, forms no portion of the claimed design.
