(57) **CLAIM**

The ornamental design for an orthopedic bench, as shown and described.

DESCRIPTION

The design of the present application is directed to an orthopedic bench that can be used, for example, to improve a therapeutic condition of a spine and back of an individual.

FIG. 1 is a front view of a first embodiment of an orthopedic bench, showing my design;

FIG. 2 is a right, front and top perspective view of the first embodiment of my design, with an individual shown in phantom lines thereon;

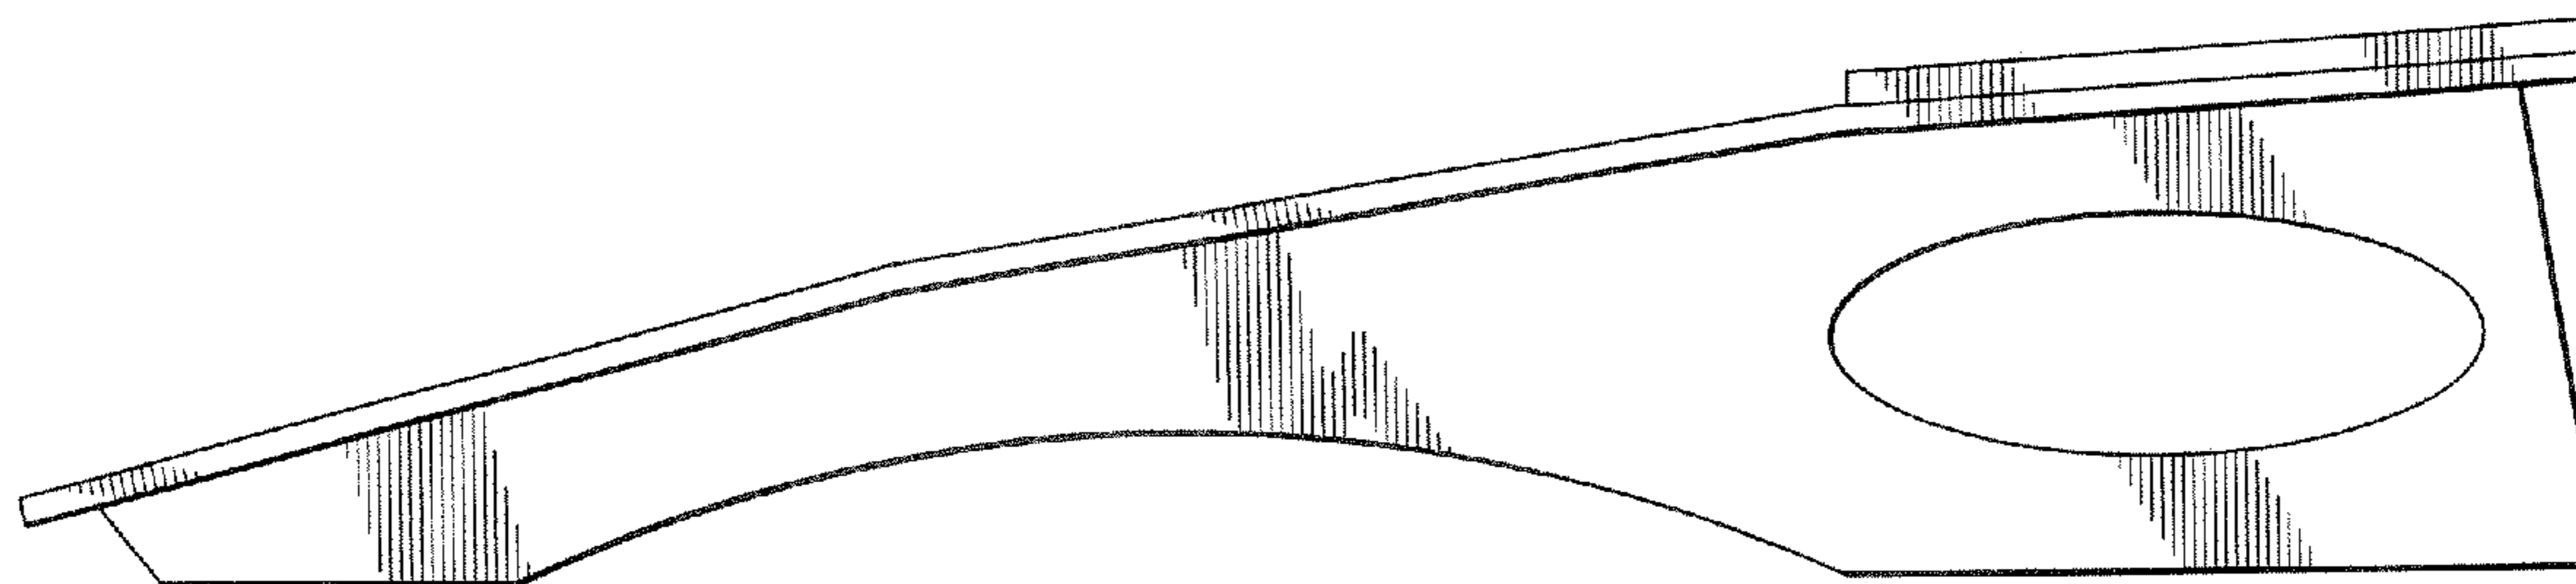

FIG. 3 is a front view of a second embodiment of an orthopedic bench, showing my design; and,

FIG. 4 is a right, front and top perspective view of the second embodiment of my design, with an individual shown in phantom lines thereon.

The phantom-lined individual shown in FIG. 2 and the phantom-lined individual shown in FIG. 4 are shown for illustrative purposes only and form no part of the design of the present invention.

The broken line showing of individual is included for the purpose of illustration and forms no part of the claimed design.
